

Ten Points to remember about this N.E.O. (Planet-7X)!

Why the name change Planet-X to Planet-7X?

To separate information in a conversation from what data source you are using. There a great deal of information on Planet-X that does not fit the data provided by the ancient Chinese writings and Scripture.

- 1. No year is conclusive on it's arrival, there are only estimates. Except for NASA, and a few large observatories and they are silent on this matter.**
- 2. We have a range of years as possibilities for it arrival 2013-21, and the year before it arrival they will notice a new object in the sky for all the general public to view.**
- 3. The years between 2013-2017 is strongly favored from the implied biblical text. The date March 26, 2016 stands in the text as an alignment of the constellation Virgo, Jupiter and P-7X. Only time will tell if this estimate is favored.**
- 4. There is clear historical data of this N.E.O. (Near Earth Object) Planet-7X.**
 - Planet-7X enters Earth's orbit path in mid-August to mid-Sep..
 - Planet-7X exits Earth's orbital path in mid-March to mid-April.
 - Planet-7X will have a separation of 150-152 days apart from entry to exit along Earth's path.
 - Planet-7X debris field that Earth travels through, is seven times the diameter of Earth.
- 5. There is clear historical data of a geographical pole shift of 26-28 degrees and drastic seasonal changes.**
- 6. New findings from astrophysics indicating gravity from a new planetary body.**
- 7. There are strong indicators of past global catastrophes (droughts, floods, extreme weather, earthquakes, etc.).**
- 8. There are strong indicators of large meteor impacts in Earth's past.**
- 9. The Bible is an integrated message, pointing to an end time event that precisely matches a N.E.O. such as Planet-7X.**
 - It informs us to look in the sky for signs!
 - No definite year is given, nor a point to count from.

- **All I can see is that we will see it prior to the 3 1/2 yr. of “the great tribulation”.**
 - **The Bible indicates what to look for prior to it’s arrival, strange weather, earthquakes, title waves, escalation on political uprising, rumors of wars, global economic distress, heighten threats to Israel, the topic of Israel will be a heavy burden to all nations, etc. and this is abundantly prevalent in today’s news!**
- 10. According to the Chinese records, the astronomers who knew the stars were able to notice a new star nearly a year ahead of it’s arrival, with their un-aided eye. Their sky’s has minimal light pollution, unlike most of our sky’s today. This object is not a “Sun” of any type, according to the information and model the N.E.O. is approximately 6.5 -7.5 times the diameter of Earth.**

This N.E.O. does not fit known categories! It does not fully meet the category of a planet, for its path can not cross other planets, as it does with Earth. It has an elliptical orbit like a comet, but It’s larger that some planets in size, so it doesn’t fit the typical comet model. So the planet/comet N.E.O. will be a new category, as well as being called a potential killer planet.

Note: I do not base my research on the Babylonians & Sumerians writings,... but I am not surprised about the equivocation of 3,600 year and 360 year periods. Since we inherited the hexadecimal number system from the Babylonians & Sumerians, we have to keep in mind that they used the same symbol for 36, 360 and 3,600 etc..

The Babylonians & Sumerians usually represented zero with nothing, a blank space. Any zeros at the end of a number would have had to be remembered, therefor todays they are randomly implied by the interpreter.

The early clay tablets claim that their leaders came from this planet. My research points to their leaders being kicked out of heaven (fallen angels) not from a planet. Could they have been lying on where they came from,.. you bet! So,... either the Bible is miss representing the truth or the writers of the clay tablets are,.... So, you decide which is truthful and what evidence you plan to follow!... Planet-X or Planet-7X.

Listed below are the ten false claims I recognize in Planet-X!

- 1. Planet-X has a 3,600 year orbit! (Miss interpreted text - “0” were implied)**
- 2. Identified as a “Sun” (Miss interpreted text - an illuminated heavenly body)**
- 3. The size varies from Jupiter size to a small Sun.**
- 4. Having orbital bodies like moons! (Miss interpreted text - probably asteroids.)**
- 5. Alien life on this Planet-X! (fallen angels)**
- 6. That Planet-X alien’s needed gold to repair their atmosphere.**
- 7. That they created human’s as a slave race to mine gold and to serve them.**
- 8. That Planet-X is so dark that only an infrared telescope or satellite can see it. (false, the chinese saw it up to a year ahead, and infrared telescope are used to look for deep space objects, beyond optical telescopes capability.)**
- 9. Planet-X is coming from the direction of the South pole region of space. (False, the data does not support that region of space!)**
- 10. Planet-X is coming from the direction of Orion region of space. (False, the data does not support that region of space!)**
