

## "Neo 9/11" Arrested freedoms

### Prison Infrastructure Begins With The Sacrifice Of A Congresswoman

In the year 2001, one particular day was chosen by the Elites that symbolized a trademarked "emergency" known for an entire decade as, 9/11. It will live on forever as the moment the United States of America and its trade became disassociate from the rest of the world.

The umbilical cord, as characterized by trade now severed, was a final blow to the country's highly esteemed position of power on the planet that it once had established. Who could ever imagine that there would be another 9/11? Amazingly, there happened to be one on **Saturday, January 8, 2011.**

this 9/11 did not require major planning, the use of nanothermite and a team of demolitionists, a presidents brother in charge of security operations of the Trade Towers, four jets, a false flag script, nor any of the intense planning and funding to produce. Neither did this recent 9/11 have to be orchestrated as an epic event. The amazing aspect is that it did not require a successful outcome either. If the shooter missed each and every individual, a satisfactory result would occur.

Before we begin the story of the assassination attempt on **Gabriella Giffords**, with all the details of which is not privy to the public, let us first reveal the ritualistic symbolism that could very well mean, "Emergency".. again.

## The Ritualistic Symbols

Events like this have been linked to ritualistic murders exemplified by several complex situations mirrored in history by peculiar circumstances. For instance, the 1990's death of Princess Diana begs many questions as to why the emergency medical vehicle was told to wait over 40 minutes before entering the tunnel where the accident happened and why surveillance cameras were turned off and importantly, why the time and date correlates to reoccurring occultic events. Saturday the eighth's massacre took place on a **Saturday**. The name fo this day originates from the planet Saturn of which is worshiped by the occult. Looking at the 2011 date....

**1/8/11. 1+8 and 11 = 9/11.**

Loughner began discharging bullets 10 minutes after 10:00am Tucson, Arizona time. **X**. This numeric symbol "X" happens to be an important occultic symbol. To illustrate the point about this symbol, it can be observed in many places and instances where, really, it should not belong.

The classic television show where it can be seen is from the 1960's television "program" designed to groom and condition generations of children is Mr. Rogers Neighborhood. The Owl, which represents the infamous several story tall Bohemian Grove wooden statute termed, **Molek**, was **X The Owl**. Incidentally, X The Owl resides in the "Land of Make Believe." This is synonymous with this nation's mindset. Familiar examples in which the branding of products using "X" finds its way into mainstream are:

**X Box, X Generation, X Games, X Files**

This extraordinary relationship seems to have tones that can't possibly originate from outside the circles of occultism. The coincidences cannot be more obvious.

Many relationships are being realized by various people. *See Appendix C*

### Masquerading 9/11

the nine year old girl, Christina Taylor Green, was an unfortunate unwitting casualty. In the aftermath is the correlation of what a public opinion feels qualifies as a 2001 9/11. Her birthday is thought of as an analogy, nothing more. But an inference to 9/11 of the past. It is a pseudo relationship. Christina so happened to be born on September 11, the same day the Twin Towers were

downed. This is a highly coincidental irony since the victim was not an intended target.

Or was she?

In light of the two main public figures, Giffords and Roll, there is no question this notion of a neo 9/11, benign as it seems, will most definitely be overshadowed by the authenticity of the true 9/11 fabricated intentionally by the Elite.

What happened on Saturday 8, 2011 was the beginning of the end to the **relinquishing of the sovereign rights for citizens** to exist in this land. Like the severance of the umbilical of the United States from the world, people living in it will become separated from their unalienable constitutional rights and freedoms under a programmed dictatorship on all levels large and small.

The birth and death of Christina Green is more symbolically realistic when related to both 9/11's. Her life represents a people's last chance for any assemblage of solidarity, peace, and the reclaiming of America. She was birthed just as **the country was cut off from the world** and then perished symbolically at the exact point our freedoms were psychologically and irrevocably breached.

### The Gunman

Jared Lee Loughner, a 22 year old, was fitting as the perfect profile subject for an MKULTRA project by the CIA to carry out this mission. But, it doesn't matter who conducted the mind control programming whether a

newly named division of MKULTRA or by another name. Same techniques – same sadists.

Apparently Loughner, having lived in Marana, Arizona, which is near Evergreen Air Center also purported to be a confirmed "Black Op's" CIA Base... is a spawned newly crafted killing drone. Need proof? I can't give any. This is speculation, but it has the fingerprint of a mind control project executed with such precision no one person will comprehend it all. The media hype and spin is too powerful and all will assume Loughner worked alone.

Loughner had contact with Gabrielle Giffords on occasions and honored memorabilia from her. He exhibited mental instability... a lunatic actually... was exceptionally bright, and at the age where mind

control practices if performed by a specialty team serve their purpose well.

An anonymous file solicited to Kerry Cassidy and posted to the blog on her highly acclaimed whistle-blowing site, [projectcamelotportal.com](http://projectcamelotportal.com), a website dedicated to disclosure, suggests that Loughner had as many as 9 encounters with current chairman of the US Federal Reserve, Ben Bernanke, in 2010. This information is pending verification. The claim that is made is that three of these encounters were meetings held in private between a global powerhouse White House Obama administrating cabinet member and a troubled snot nosed 22 year old. The anonymous tipster states that these Bernanke and Loughner meetings are under Federal investigation.

In the meantime, a complete media generated profile has been surfacing for consumption by the general public. The mechanism that created a Manchurian Candidate, if this is what happened, would want the public's attention to focus only on the individual as the self-styled criminal in order to character assassinate him through public controlled incrimination through entertainment venues we call the news. The media's sensationalistic style is taking advantage of Loughner's self-imposed drugging, last minute assembly of "parts" as in the last minute purchase of bullets required to conduct the business of a political assassination, and so on, as examples to portray him as a rogue operator.

An operation as intricate orchestrated as this was likely to be carefully staged to illustrate to the public how easy it is to assemble and craft a killing machine on a moments notice. It's all about defeating the 2<sup>nd</sup> amendment rights over the course of this year 2011. Once americans are disarmed, then lost in favor of the Elites during this silent war will be our first amendment right to freedoms.. in particular the speech aspect of which the first amendment is specific. A US citizen will not be able to utter any word referencing governmental agencies and its members, text message, blog, report, or email safely without being monitored.

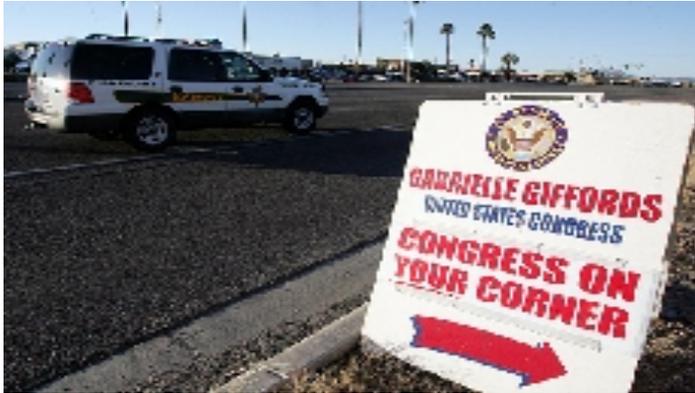

This will preserve the true meaning of Saturday's event as time goes on. While the public snoops and garners more superficial "factoids" on the assassin, people will soon lose sight of forest for the trees for they will have been conditioned to focus only on a few people; Gabrielle Giffords, a deranged Jared Lee Loughner, and an innocent child caught in the chaos of the tragedy. We will be intellectually controlled while diversion takes place rather than seek the answers as to why this happened. We will have bought into the corporate media spin that is

emotionally driven.

Loughner, it characteristically seems, was groomed for a mercenary job.

## Ramifications of the Event Day

When John Fitzgerald Kennedy was assassinated, the automobile was an open convertible and the security thin. Since then, all vehicles became highly protected armored transit systems.

Courtesy AP

Subsequently when Giffords was wounded, the same unprotected conditions prevailed. What will become armored in the beginning is not so much the 'big box' stores like, Target, Walmart, or any location a Congressional presentation occurs like Safeway Supermarket, it will first be the Federal buildings, Federal installations still vulnerable to "attack", and places of Congressional venues where statesmen and lawmakers would convene. Any public gathering would be under the pretense of the most rigid lock down style event. Armed guards, mobile guard towers and armament with structures characteristic of a prison setting.

The Obama Administration this year will make decisions to appropriate vastly funded projects in order to finance a defense grid – a protective shield – that supports the expanding empire from Capital Hill fanned out over the entire nation to the West Coast, Hawaii, Puerto Rico and everywhere it can twist its ugly tentacles.

They created a mind-set by which we will "want a safer gun free government protected country" thinking it is for our own protection.. like everything else.

Certain factions in Congress are moving very quickly to seize upon the tragic shooting in Arizona to pass both gun control laws and restrict free speech under the guise of protecting political servants. They have

teamed up with the mainstream corporate media to pose as concerned liberals trying to protect the weak, while forcefully demanding draconian restrictions on the Bill of Rights.

Congress currently is debating the cost of security with the Democrats suggesting a heightening in districts where lawmakers feel particularly exposed while Republicans suggest remedies largely without additional costs. But, what is appearing to be a debate will eventually suit the lawmakers over the masses. In other words, while America is being disarmed, all lawmakers will be allowed to carry defensive attire which include firearms... of any kind. Opinion, but most likely an accurate one.

Sen. Lori Klein, (R-Anthem) of Phoenix is doing just that despite signs making the building a weapons-free zone. President, Sen. Russell Pearce, is not taking action saying, "It's kind of a 'don't ask, don't tell' policy right now."

A plethora of tyrannical campaigns have been initiated and designed to break up communities and turn citizens against one another. The justifications for these fascist programs are always a matter of national security, yet the real reason is to set up a police control grid in particular with the event on Saturday the 8th, 2011.

Courtesy AP

Other ramifications of subtle hue hinge on whether some sort of race card is being played out. Texe Marrs says on his website in a section Analysis of what I call the Neo 9/11, entitled, "No, I will not trust in God.":

*"This vile crime would empower the government to clamp down on supposed 'anti-Semites' and 'anti-Government types.' In fact, the Department of Homeland Security seems determined to use the incident as a pretext to do exactly that, regardless of the fact that Loughner himself is Jewish."*

If this was an assassination of grand proportions resembling a "9/11" one decade ago, it also has the earmarks of the JFK assassination. But, because the incident was on such a small scale, it may never go forth under as heavy scrutiny to become the next big "Truther" movement. There's just not enough solid evidence to go by.

Loughner's parents: *Courtesy AP*

Christina Green's father pleaded with the nation that his daughter's death **"should not be exploited as a justification to crush constitutional rights."** Now, this is good news because it indicates that he knows the intrinsic value of our constitutional rights and that he may intuitively know what the implications of that day meant.

How much information was not presented to the mainstream media? What sort of investigation will take place? The media is working diligently to manufacture the picture in the minds of the public to view Loughner as a lone wolf when in fact, I believe he was a perfectly created Manchurian Candidate.

### **Judge Roll**

Overall, he was an honest person and judged honestly. The man was one of the most controversial judges to the establishment evidenced by the enormous amount of threats over 200 documented incidences coming from government lawmakers, big industrial entities and businesses... from all angles.

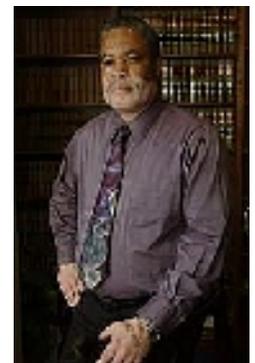

John McCarthy Roll was a Federal Judge for the United States District Court for the District of Arizona. What the media is not saying is that Judge John Roll in charge of the EPA litigation case was

against all the industries that polluted the water supply of Tucson, Tucson International Airport, and surrounding areas for over half a century. For those who have attempted to expose the crime, deaths have occurred. This has been a bloody issue.

The toxic pollution resulted from years of indiscriminate toxic dumping of all the used petroleum derived fluids such as hydraulic, brake, and the rest of the engine fluids changed out from every airplane and jet at Tucson Airport and from Davis Monthan Air force Base. The Tucson Airport Authority is responsible. It is a nonprofit organization created to manage Tucson International Airport and general aviation reliever airport, Ryan Airfield, to support and maintain the airfields' runways and other facilities. All of the solvents used to clean the equipment and aviation crafts were secretly dumped in abandoned mine shafts, Tucson Electric Power cooling water shafts, the garbage dumps and various locations surrounding the desert for over 50 years. This activity is not just local to Tucson although it is the most victimized. It is a nation wide phenomenon with California being a major illegal dumping ground as well. Judge Roll may have been ready to rule against them.

This case, if not blacked out of the media as it currently is, could very well be the biggest class action lawsuit ever recorded in history. As it is, the case will either quash, or pay out chump change in order to seal the case lock and key and put to rest.

The case was handed off immediately to **United States District Judge Raner C. Collins** who may favor the polluting corporations before Roll even hit the ground. In other words, this transfer was so swift and happened before John Roll was buried that it appears as if it was predetermined. The assassination plot thickens in lieu of several huge corporations the law suit lingering in the shadows of Judge Roll's death. Could the Tucson Airport Authority, McDonald Douglas or Texas Instruments be implicated in murder?

*Tucson Citizen*

On Friday the 7<sup>th</sup>, the day just before the assassination, Judge Roll issued a "preliminary ruling" in a case titled "United States of America v. \$333,520.00 in United States Currency et al" (Case 4:2010cv00703 Filed: November 30, 2010) that would, for all intensive purposes disallow the movement of hundreds of millions of dollars of confiscated drug profits directly being placed into private bank

accounts tied to mafia kingpins.

72 hours before Judge Roll was killed, a Foreign Intelligence Service (SVR) report from the Kremlin states that Judge Roll was assassinated 72 hours after making a critical ruling against the current administrations plan to begin the confiscation of American's private retirement and banking accounts in order to stave off their nations imminent economic collapse, and after having the US Marshals protecting him removed.<sup>3</sup>

The case was about smuggling bulk cash into or out of the US that the Obama administration claimed was their right to seize under what are called Presidential Executive Orders, instead of using existing laws. The administration used as support for their claim before Judge Roll, the SVR says, the seizing of all American citizens' gold, in 1933, by Franklin D. Roosevelt's signing of executive order 6102, which was ruled at the time to be constitutional.

A. True Ott, PhD, writes:

*"...The case being ruled on by Judge Roll, is all about bulk cash smuggling into or out of the United States by Mexican drug lords and who exactly has the final right of possession of the funds. It appears that the Obama administration claimed the right to seize large amounts of cash and assets under authority of Presidential Executive Orders, instead of using existing laws. The Obama administration used as support for their claim before Judge Roll the seizing of all American citizens' gold, in 1933, by President Franklin D. Roosevelt's signing of Executive Order 6102, which was ruled at the time to be constitutional.*

*The question that needs to be thoroughly investigated is, 'why is Obama's Justice Department, and A.G. Eric Holder getting mixed up in all of this, and why do they care what happens to Mexican drug cartel funds?'"*

There is a final inference about the quietness of Sen. John McCain during the week following the shooting. Sarah Palin has been hotly criticized for political attacks on Gabrielle Giffords and it is John McCain who has close ties with Palin of whom the media is focused. Palin, incidentally, is handled by Kissinger who is not only a frequent show at Bohemian Grove gatherings, but top integral interlocking leader between the Trilateral commission and Bilderberg group.

Courtesy: AP

It arouses suspicion as to whether it be McCain's incessant push on S.510 – the hotly debated Food Modernization Act which is not being publicly channeled in the media, or that both McCain with Sen. Jon Kyl, recommended John Roll for the federal bench 20 years ago, but have reversed the partnership because of Roll's opposing rulings to the agendas of the Obama Administration and have agreeable participation for the assassination attempt.

It is no secret that John McCain is connected to mobsters by marriage to his second wife, Cindy Lou Hansley.

See **Appendix B** for an overview of the Hensley family saga.

## NASA & The Mission in Space

Giffords holds seats on the House Science and Technology, House Armed Services and House Foreign Affairs committees, and has served as chairwoman of the House **Space and Aeronautics Subcommittee**.

NASA

Gabrielle is married to Veteran astronaut, Mark Kelly, who is scheduled to command the final flight of the Space Shuttle, Endeavour, which is slated for operation now on or after April 19. This date has been moved forward time and again for over 6 months which is unusual. Kelly is also a Former Navy Captain and it happens to be the US Navy who is intimately familiar and aware of Planet X's potentialities. They have even outlined a safe haven for retired navy personnel in the Arkansas-Missouri Ozarks. His identical twin, Scott Kelly, and commander of the Expedition 26 mission, is currently living aboard the International Space Station.

## The Mission

The next to the last planned mission of the Space Shuttle Program is the final flight of the Endeavour. This flight will deliver the Alpha Magnetic Spectrometer and an ExPRESS Logistics Carrier to the International Space Station.

Changes in the design of the main payload, AMS-02, as well as delays to STS-133 have led to postponement after postponement in the mission. It is now targeted to launch on or after April 19, 2011, with a contingency mission to rescue a stranded STS-134 crew, would be the STS-335 flight.

## Micrometeoroid debris shields on the International Space Station.

Shuttle Endeavour.: Courtesy NASA

The purpose of the shields is to strengthen the defense factor on the station due to the anticipated barrage of debris of rocks (purported by RBN talk-show Host, John Moore's, "Classified Source." He speculates the debris field to have an expanse of a quarter million miles on either side of the dwarf planet accompanying Planet-X, or Nibiru as it is also known.

Dextre: Courtesy NASA

Endeavour will deliver two S-band communications antennas, a high-pressure gas tank, **additional spare parts for the micrometeoroid debris shields** and the Dextre Robotic arms on spacecraft are used to move very large objects in space.

But, there happens to be a discrepancy about the payload described by NASA. Nibiru researcher, John Dinardo, on Monday 8/09/10 emphasizes suspicious activity related to the Space Station says:

*"Eight and a half tons of equipment has been launched up to the International Space Station. I don't know how heavy that station is, but it would appear that major renovation work is ongoing up there.."*

*Eight and a half tons of equipment has been launched up to the International Space Station. I don't know how heavy that station is, but it would appear that major renovation work is ongoing up there, and what about the tonnage that is being kept secret? Anyone who is familiar with the consistent deceit and the continual lying by our government should suspect that 8 1/2 tons is likely a falsely small estimation of the actual tonnage. Usually, they cut figures to one-half or one-third of their actual value, when they deceive the public about one of their typically clandestine operations.*

*Everyone who is awake knows about the massive celestial body(ies) now being gravitationally drawn in by our Sun, and the resultant cataclysms. So, of course, the prime and sole focus of the criminals at the top is to escape the coming disasters. I believe that the International Space Station is a component in their clandestine escape plan, along with their trillion dollar underground cities, which Gov. Jesse Ventura recently documented on the TruTV channel."*

There is no other explanation for the wave of some sort of anticipated debris cloud as there are none documented on any chart. If so, none is reported to the general public through any of the space and aeronautical filtering outlets designed to inform the public. In fact, reported one month later on January 12, is an article in NASA Science News that the Solar and Heliospheric Observatory detected a storm of 25 house-sized icy comets that careened into the sun beginning on Dec 13th and ending on the 22nd.

Why is this report one month late... concealment?

## Nibiru

Planet X. Whether one believes it or not, it is on it's way. The Sumarian Scrolls as well as many other cultures tell us this. Gabrielle Giffords having been associated with the Space Program would have to know this. Ironically, Nibiru is also referred to as 'Gabriel's Fist'.. the name bears similarity to Gabrielle. It is racing towards us and the Elite know that havoc will rage in the oceans enough so that it is predicted great tsunamis will wipe out Kennedy Space Center as well as other coastal NASA Facilities including Cape Canaveral, however, they don't want this information in the public domain. Perhaps they are prepared with a **faked alien invasion known as Project Bluebeam**. Whether it happens or not,

preparations by the Elite are being made. The final Shuttle Mission is testament to this fact.

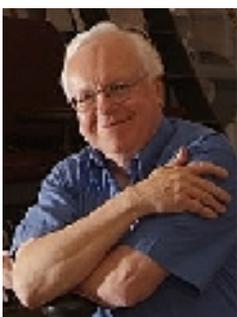

Because Gabrielle Giffords is close to the aerospace council arenas which includes high tech and the intimate connections she has with astronauts in and out of space, speculation that can be extrapolated is that she is aware of the destructive passage of Nibiru through the solar system when it cruises past earth.

**She may have had plans to warn the people.**

## Damage Control

### Sean O'Keefe

On August 10, 2010, former NASA Administrator, Sean O'Keefe with his son, survived a downed small airplane crash in a remote area of Alaska. 9 people were aboard the craft including, Ted Stevens (R-Alaska), who was not so fortunate in the mishap.

### Brian Marsden

Chief Astronomer and famed for his unique ability to accurately track and predict potentially threatening comets and asteroids had a long term illness and passed away on November 11, 2010. At Harvard, Marsden served as supervisory astronomer at the Smithsonian Astrophysical Observatory and as director

emeritus of the Minor Planet Center. He quite possibly was murdered for assumed fear that he would leak information about Nibiru.

### John P. Wheeler III: A complex question

John P. Wheeler III, who had been in the Bush senior administration, was a former Army officer, West Point graduate, and worked in the Pentagon. Wheeler had done securities and exchange commission stints including a job with Mitre Corporation which handles some information technology work for both Homeland Security and the U.S. Defense Department. He was a consultant at the Jet Propulsion Laboratory (JPL). Wheeler **had been portrayed in the media as mysteriously killed**. His body was recovered at the Cherry Island Landfill in Wilmington, Delaware, on Dec. 31, having last been

reported about to board an Amtrack train for home after a meeting with government officials. Two days prior, Wheeler was eye witnessed and video taped in a disoriented state, twice, but no reports by witnesses or by the autopsy indicate that he was intoxicated by alcohol. Drugging, therefore, can be speculated.

With regard to the Giffords assassination attempt, there may be more, but not by much, of a similarity with Wheeler and Judge Roll's intentions. Roll was headed in the supposed direction that he would rule detrimentally against the companies in the Environmental Protection Agency (EPA) case vs. Corporations that polluted the environment with electrified hydrocarbons (TCEs).

"Wheeler knew about **phosgene poisoning** being purposely seeded over populated areas via aerial spraying" says Physicist, Colleen Thomas. "This covert activity is happening not only in Europe, but worldwide including the US. Phosgene is the chemical cache confiscated from Saddam Hussein during the Iraq invasion. It is the same chemical causing the mass bird die off.. among other animals."<sup>4</sup>

Wheeler said at a Washington D.C. Meeting the that if the Obama Administration did not cease and desist with the poisoning, that **he was going to tell Russian Prime Minister, Vladimir Vladimirovich Putin**.

"In fact," says Thomas, "Wheeler was murdered on his way home from a Washington D.C. meeting where he posed the threat. The US had told Russia that agents would be destroyed and lied about it. They did not want John Wheeler to expose them for that nor the deliberate spraying of the lethal chemical, phosgene. A reporter who had followed the Wheeler case in conjunction with the phosgene poisoning has recently been murdered as well."

Perhaps Wheeler has no knowledge of the space agenda coming up in mid April and the pending threat of Nibiru's wrath, but there is an indication that because he was a high level consultant to JPL, that the Global Elites fear he would reveal the chemical spraying of phosgene, and of course that there is a covert agenda by the space program regarding an inbound space object. He would announce it to the public as well.

*An interesting overview on the psychological implications revolving about a speculated inbound object is perplexed by a carefully monitored media blackout by Nibiru researcher, Gordon Gianninoto, can be found in **appendix A**.*

## Final Mission of the Space Shuttle Endeavour

*"...It may be interesting to note that on January 13, 2011, NASA establishes April 19 as the new targeted Launch Date for this mission.. Historically, very tragic events have happened on April 19<sup>th</sup> and other "interesting" events coincide within only a few days of this date.. In my firm opinion, The Elites carryout satanic ritualistic sacrifices on this date, outer space included."*

- Sheldon Day

The question remains as to what is happening in space on a final mission of the antiquated space shuttle program. What do two brothers on a final shuttle mission have to do with the shooting debacle that occurred in January? One brother is already engaged in service in space and Gabrielle Giffords astronaut husband, Mark Kelly, the identical twin, is ready to depart via last scheduled shuttle mission.

Sheldon Day, also a Tucsonan, and proprietor a website called **thelightofdayradioshow.com** that is highly dedicated to the onset of the massive brown dwarf star, also known as, Nibiru, specializes in the study of its timing and trajectory through our solar system. Sheldon Day has formed an opinion about the reasons for an assassination. He theorizes that there may have been a potential problem or fear that Gabrielle Giffords **would spill the beans about the space program.** This situation has similarities to that of John Kennedy's preparations to reveal truths about the space program of the 60's. He thinks that if Gabrielle's husband is on a suicide mission in space because of a projected notion that Nibiru will wreak havoc to the surface of the planet, create an electromagnetic field pole shift, and most of all, cleanse the Floridian panhandle by tsunamis that would flood it out, or the astronauts and shuttle rendered helpless, or stranded in space, by a barrage of space rocks compromising the Shuttle Endeavour.

Nibiru at its worst would affect the entire space program causing massive geological and natural disaster-like problems, armageddon so to speak, that by injuring Giffords would keep the astronauts in line by quieting them, hence they would be compelled to execute their mission without question.

**Disclosure of Nibiru's passage and the catastrophe it leaves in its wake is the main fear** of the Elites because they don't want to lose control of the masses by having the economy shut down and having intelligently-driven businesses run for the hills to go

into survival mode.

If the expected scenario of destruction by the rogue dwarf star, Nibiru, is an "aerospace problem that is not to be disclosed to the public" be an agreeable argument, then the story of murder is synonymous with the one that happened in 1963. JFK was ready to report openly to Americans about the alien being presence on earth and that they have been working among us since the Eisenhower Administration. John Kennedy was going to openly share our space program with the Russians. **Disclosure back then was was the main fear of the Elites.**

Students of history will remember a small portion of a 19 minute speech warning us about the dangers of secret societies. Kennedy delivered this speech at the Waldorf-Astoria Hotel to those that dispense the news on April 27, 1961. "The President and the Press" before the American Newspaper Publishers Association. It indicates how opposed he was towards the agendas of the New World Order and the advancing military industrial complex.

*"The very word 'secrecy' is repugnant in a free and open society; and we are as a people inherently and historically opposed to secret societies, to secret oaths and to secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify it."*

This was not enough to have him killed, however, as evidenced by president Dwight Eisenhower's Jan. 17<sup>th</sup> speech just three months prior. He presented the nation with a dire warning about what he described as a threat to democratic government, but was never killed for it. He called what was happening "The Military Industrial Complex," a formidable union of defense contractors and the armed forces.

It took over two years in late 1963 for the assassination of Kennedy to take place. Mainly, it was for the reason he was prepared and ready to disclose what the Elites were withholding from the public and not that he warned us about them.

Kennedy's voice yielded an incredible message that chronicled precisely what citizens should be aware and cautious of. He told us, without naming any entity specifically, that it was in fact the Illuminati behind the scenes. If a president today were to repeat the same words that John Kennedy did, we would know the truth for which the state of our country is in as well as the trouble we face beginning January 8, 2011.

As is always the case in today's corruption, these people will never admit their cause and wrong doing.

## A Word About Disclosure

Backing up again to the John F. Kennedy days when word was he would reveal to the citizens of the United States of not only secret societies and their secret agendas, there was an event that took place during the Eisenhower administration that was kept concealed. That information has now been disclosed for general consumption.

### The Eisenhower Brief

Dwight D. Eisenhower was in receipt of a briefing of which had attached special public considerations because of the sensitivity of the conditions. This information, however, has been recently announced publicly by former legislator, **Henry McElroy**, who presents a statement on the unreleased 'Eisenhower Brief'. This document discloses the alien being presence on this planet. If this statement was released in 1963, the president then, John Kennedy, would have been eliminated. As it turns out, he was. The brief was passed off to him by Dwight Eisenhower, obviously, and he was prepared to show it to us. Although the brief has been known for decades but its existence denied, it has just now been allowed to become public domain in McElroy's youtube video explanation of the brief. It is not surprising that he has not been eliminated for having done so. This can only mean that there is an ulterior motive for having that admittance of aliens be known to the public. Hence, McElroy directed to address the masses using the internet. Otherwise, why would he risk his life after service to the country and living quite comfortably in retirement?

But, the government and the government behind it are not talking about the passage of Nibiru for that is most likely what they still want to be kept secretive. Gabrielle Giffords, like JFK, had the attempt on her life perhaps for the same effort to warn us about something; not of aliens, but of impending doom by a cosmic event.

## Guns and Weapons Laws, the Greatest Threat to the 2<sup>nd</sup>

### Amendment

Gabrielle Giffords was a pro-abortion campaigner and is understood to have received death threats after supporting the controversial healthcare bill.

By contrast of interests, she also supported the gun

lobby in the US and owned one herself, ironically a Glock 9mm pistol, the same make used by Loughner.

*"Her support for the right to bear arms must be considered when viewing Saturday's event as a government assassination plot... within one week, three gun regulation bills emerged and were introduced in Congress."*

Courtesy AP

Loughner used a weapon that was banned and then reintroduced back into legal guns pools which, because the Constitution affords us all the right, even models and brands a mixed up 22 year old could purchase.. and that's how the media will want the general public to view it. Too easy for a psychopath.

It is quite obvious this was a planned part of the orchestrated assassination. If every facet of an operation were to be considered and the outcome fulfill a need, then because the intent is to disarm americans by installing heavily regulated weapons laws, they must arm the shooter with such a weapon. This would be necessary in order to appall americans conditioned to be fearful of armed assassins, thus, easily push highly regulated laws through Congress over the course of the year 2011.

The newspapers are currently printing advertisements of what is to come as well as showing us how dangerous it is not to have highly regulated laws prohibiting the sales of weapons *"of small, yet lethal destruction."*

It is believed that Obama will be asked to expand on his apparent support for a bill introduced by Democratic Rep. Carolyn McCarthy of New York that proposes a ban on the sale or transfer of high-capacity gun magazines.<sup>2</sup>

## Building a Prison Yard in Your own Neighborhood & Across the Country

### Evolution of the mobile perimeter surveillance platform "Mobile Guard Towers" is as follows:

Founded in 1992, New Heights started out in the outdoor recreation market. In 1996 New Heights modified the product as the company began the transition into the security marketplace. The new, portable security tower was designed around **security industry feedback** and included a generator, lights and heat/air conditioning. Among

ICx Corporation's "Cerberus" is a fully integrated, mobile perimeter surveillance platform capable of rapid deployment. 'SkyWatch' mobile observation towers.

the first major customers were the U.S. Border Patrol and the 1996 Olympic Games in Atlanta. Today, New Heights mobile security platforms are **used by all branches of the U.S. military and other government agencies, police departments**, colleges, prisons and amusement parks, as well as in international markets. The initial platform has evolved and now offers optional **bullet proof capability**, thermal cameras, public address equipment, ground surveillance radar and wireless transmission capability, to name just a few enhancements.

In September 2005 New Heights became part of **ICx Technologies, Inc.** ICx was formerly a subsidiary of Charter One Bank, National Association. As a result of Charter One's acquisition by RBS Citizens, N.A., they operate as a subsidiary of RBS Citizens, N.A.

They significantly increased its integration capabilities as well as the financial strength of its operations. ICx provides advanced technologies for **homeland security** and force protection, with

operations dating back to 1975. Through Digital Power Capital, its largest share holder, ICx began investing in companies with leading-edge security technologies and was incorporated in 2003. ICx lease this equipment to **the federal government**.

### Globalist Elitist: George Soros

George Soros has a controlling hand in the area of firearms and Ammunition. He can turn the switch off at anytime. An illustration to how catastrophic an act that is, the genetic seed modification giant, Monsanto, the insidious company that has control over natural food supply by its synthetic food program, if they decide to refuse selling genetically modified seeds to farmers worldwide, global starvation would ensue within a single year. As recently 2003 as the threat of the merger of north american nations, Canada, Mexico, and the United States known as the North American Union with a proposed currency called the Amero, Soros invested 100 million in the Carlyle Partners II, one of the Carlyle Group's most successful funds. In 1992, George Bush Jr. signed Executive Order 12803 on infrastructure privatization which removed the barriers the federal government for cities and states to lease public works infrastructure to private investors<sup>1</sup>. Spain being the principle nation the US was practically giving rights to have already paid by taxpayers property. Soros, therefore, has a track record as being a sellout.

Hungarian born, Soros has dedicated a large percentage of his income gained from manipulating international stock and currency markets to push for gun control. He funds, Rebecca Peters, director of the International Action Network on Small Arms (IANSA) and Chair of the National Coalition for Gun Control, who is working with the United Nations and governments around the world to remove personal weapons. She is secondarily responsible for bringing about sweeping changes, including uniform gun laws across the eight states, a ban on semiautomatic rifles and shotguns, and a year-long buyback that destroyed nearly 700,000 weapons.

George Soros, it seems, is also profiting off the controversial TSA scanners.

The idea is this.. **there is a connection between the "SkyWatch" mobile observation 'guard' towers and Globalist, George Soros.**

ICx that supplies and leases these mobile guard towers, one model of which is named after the company 'Cerberus', to corporate and federal government entities, is owned by Cerberus Capital

Management LP.

Steve Feinberg, CEO of Cerberus, and George Soros are joint partners in the largest firearms and ammunition company called 'Freedom Group' and is based in Madison, N.C.

The George Soros controlled private equity company, Cerberus Capital Management, could pull the switch and cut off all gun and ammunition sales in the US. Apparently, the American people are unaware that for the past decade, **Cerberus has acquired nearly every gun and ammunition maker** in the United States and consolidated them into a holding company called 'The Freedom Group.'

Cerberus now controls 13 brands in a holding company it created for its Madison based Freedom Group. With sales of nearly 1 billion dollars in 2009, Freedom Group is the largest gun and ammunition maker in the U.S. That means Stephen A. Feinberg, Cerberus' founder and managing member, is the country's top civilian gun magnate.

An important internet blog post warns about the visible preparations of a visibly emerging prison nation by an awakened "free" citizen of the U.S.A:

**Posted by CityGypsy, Jan., 2011**

Hello...

*I want to share something with you. Recently, I discovered that mobile mechanical police towers are popping up in "small town america." The first one I came across was filmed somewhere in North Carolina, by a YouTuber. The guy was driving past his local Walmart when he spotted this huge 30 foot mobile police tower...looming over the parking lot at Walmart.*

*This is very recent...as in November/December 2010.*

*I felt I had to do a more extensive search...to see where else these "30 foot mobile police towers" were being set up. I found many more actually. Most of them all located in small town u.s.a. but the one thing that really caught my attention...is that all the videos about these mobile police towers were filmed by ordinary citizens like you and me very recently, as in most of them were filmed in November/December 2010 and January 2011.*

*They are test ballooning this...in small town u.s.a. To get everyone acclimated.*

*I don't know about you...but when I see looming mobile police towers in a Walmart parking lot, or one close to a grassy park in another 'small town' and another one at*

*a really small train station in yet another 'small town' and all the other ones I now see scattered across the eastern states, it gave me the willies.*

*They look like the towers in a prison yard.*

This mobile surveillance unit is operated by U.S. Border Patrol personnel and is set up just 7 miles from the Mexican border, north of Nogales, Arizona. This unit is a couple hundred yards from the house I grew up in and is positioned on a hill overlooking a valley used as a corridor for illegal entry and drug smuggling into the U.S. *Courtesy Tim Speakerman*

Arizona: Coronado Natl. Forrest being viewed southbound by the surveillance tower pictured earlier. The mountains in the background are in Mexico. This is an appropriate use of the equipment. *Courtesy Tim Speakerman*

*Are all of our towns and cities going to eventually be giant prison yards with mobile mechanical police*

towers scattered everywhere?

*Gabrielle Giffords: A terrible horrible awful tragedy. People were killed. A 9 year old child was killed. All of this in a Safeway parking lot in Tucson.*

*A friend of mine wrote me an email this morning. My friend see's all the same signs that I do concerning the tearing down of our American way of life. The tearing down of our once free and open society...until the tragedy of 911 that is....after that, the degradation sped up. Isn't that what happened in Germany with the Reichstag Building Fire? History teaches us, years later, that the fire was started by the German Government...for the express purpose of...instilling fear on the people...and they gladly traded their free and open societal ways for what? Security! What happened right after that? Anyone?*

*Anyway, my friend told me that he went to 2 meetings this morning. Two different meetings with two different groups of people. He told me that everyone was talking about the Giffords tragedy...and that 99% of them were literally touting "more security...we need more security!!!"*

*Do you see how this poison spreads? I hope you do. Don't be one of the poisoned ones.*

*They would have us trade our liberty and freedom...all in the name of more security from the boogiemans...*

*Backscatter XRay Machines at the Airports, installed with the quickness, so fast in fact it makes my head spin. Not to mention the totally uncalled for extreme pat-downs if you don't want to get radiated by "the machine". These pat-downs are humiliating in the extreme. This is done on purpose. You can see that can't you? Tell me you can.*

*So...whats next? XRay Machines at Football Games? The Mall? The Movie Theatre? High Schools? Colleges? The Opera House?*

*So...about these 30 foot mobile police towers...are Americans going to allow the continuation of this ever growing Police State in this country by allowing these to go up because everyone has been rendered a spineless jelly fish through the propaganda of fear tactics?*

*Is this what we have become in this country? Never trade your God Given freedom for security in any measure...for any reason! The consequences of doing so are grave.*

*The timing...of the Gabrielle Giffords tragedy and these mobile police towers springing up in small town*

*America is just impeccable. Think!*

## Phosgene

In light of the newly introduced deployment of the phosgene toxin in dispersing with chemtrails, it is highly recommended that if you have children or work for the educational system and would like to provide the best youtube videos for the education of chemtrail activity and the weather modification program, please visit her site. The titles of the chemtrail videos are:

*"One full day of chemtrails"  
"Another full day of chemtrails"  
"The ChemX Files" (Best)*

## The Essence Of It All

*"The Constitution is nothing but a God Damn piece of paper"  
- George Herbert Walker Bush "Jr."*

20-30 years ago, a president would have been impeached for saying this publicly while in office.

What appeared to be and what the mainstream media is showing is a twisted tunnel visioned image of the attempt on Gabrielle Giffords' life. Shown to us via the news is most likely a diabolical fabrication of a "maligned self-styled killer story" in order to illicit a first of the year mindset with the public. It's memorizing purpose; to detach human beings from anything that would afford them power to do anything about becoming powerless to the offshore globalists dead-set on imprisoning them.

And damage is what they accomplished with the murder of John Roll and near one with Gabrielle Giffords. She was a Congresswoman who was chosen to be sacrificed so that a stranglehold on

human rights could manifest more easily than with the past two years. The Elites had attempted and failed to disarm the citizens of the United States, which incidentally is one of the final steps and the only way a super power can be defeated, so as to make the final jump into a New World Order super power status. They are now inches away.

Christina Taylor Green was born on 9/11 and was murdered on 9/11 one decade later. *Courtesy ABC*

The dismantling of the US began during the 1974 oil embargo "Peak Oil" crisis and culminates once the Constitution no longer applies.

A Neo 9/11 it was on Saturday 8, 2011. 2001 was the year this nation was isolated from the world and became crippled during the massive Bailout scheme... powerlessness. The month of January, 2011 was the beginning of the end to our sovereign right for freedom. Our lifeline to the constitution potentially irreversibly severed if not watchful.

If we don't stop to look today, they will imprison us right where we sit.. idle, blind and ignorant.

Thank you,

#### Appendix A

**A detailed report, written by Planet-X Researcher, Gordon Gianninoto, contemplates upon The Space Program's Secrecy Directives being Reinforced by NASA as the Clock counts down for Planet-X's passage**

*"It is seeping out gradually, little by little, a story so large, so big it cannot be contained. In the halls of Congress, in the secretive agencies, in the media boardrooms, in the homes and workplaces. A question. A whisper, a glance. An acknowledgment, and for most a secret too terrible to contemplate. We are all on the verge of everything changing. Changing forever. And we cannot, should not, put the genie back in the bottle.*

*In order to make way for the new, the old has to be*

*swept away. You are an old soul. You were born on an planet and will live and die on a planet. But if you are an eternal soul, all of your lifetimes are like grains of sand on an endless beach. Nothing that is you will ever be lost. It cannot be lost, will not be lost, and you will be back, better than ever, forever.*

*So who is on the front lines? Our astronauts. They go up into space and they see with their own eyes that Planet X is near the Sun. They see the tail with hundreds of large moons, thousands of smaller moons, and clouds of rocks, hydrocarbons and iron ore dust. They know the tail is made of twin strands rippling so that Planet X appears like a bird wheeling in the sky; like the 18,000 year old glyph in Bolivia warning it will come again. They know the rocks from the tail have swept through the solar system and are flying free to enter our atmosphere.*

*You know that instead of scheduled meteor showers, rocks are burning up in our skies like never before. If you are in a space ship and a speck of dust the size of the head of a pin hits your ship at 17,500 miles an hour or perhaps 40,000 miles an hour, you are done. Finished. It is over.*

*Astronauts are rigid people. They follow checklists and rules. They are used to being in command and in control. The ground controllers have the same personalities. You start at the top, and step by step you move through your list and operations are sequential and automatic. You are an elite bunch and you keep to yourselves.*

*Everything you learn now you are prohibited from telling your spouse, your family, your friends. You can only talk to those with whom you work, and you grow closer to them and lose touch with everyone else. Your coworkers become an extension of your personality and if they are in danger, you are in danger. You must protect each other. You must confide in each other. If you don't then you have nothing.*

*First it was alien starships seen and recorded, then alien ruins and archeology plainly created by extraterrestrials millennium ago. Then it was reports of ET technology, and finally you were handed devices gotten only from off the earth. But then you saw and recorded a new planet entering the solar system and you found out that the Earth is about to go through pole shift and nearly everyone will die who does not save themselves.*

*Then you learn the government has only plans to cover up every detail. You learn that your agency has known the truth for over 50 years and that everyone except the elite leaders are expendable. Then the agency is taken*

*apart and new projects are canceled because there is no program after pole shift. Then the elite managers above you are relocated to new states and given safe homes in gated communities.*

*And you are told that you will stay on the job in a location certain to be washed clean by tidal surges, and you are told your work is to put your friends, your only confidants, your lovers, and compatriots into harms way on what is a russian roulette suicide mission.*

*And then you pull out a gun and lose it. You shout that you will not be part of the coverup and you will not murder your friends by putting them in harms way. And, being expendable, and powerless, you know nothing will change and so you use your few minutes left to threaten and beg and soon you will have a choice and it will be to die or be locked up forever, separated from what little of importance the agency let you enjoy.*

*By chance, CNN is there doing a story on the launch of the Discovery on the second to last shuttle mission. You know they have a humanoid robot on it to test replacing astronauts with machines and you know why. But this robot is cargo not crew. There is nothing you can do. Then, it is over.*

*CNN requests information on the gun incident and is told that a security exercise is in progress. But no security exercise is ever performed before live to cameras without previous permission, explanation and clearance. Then the announcement: a fuel leak has been found. As you are carted away, NASA plans to re-interview, test and diagnose the entire launch and shuttle crews. Who can be launched, who can be trusted?*

*Will the replacements for you follow the rigid rules, or like the only french female astronaut, Claudette, blurt out at a news conference in the fall of 2008 "The people must be told, everyone must be warned" only to slam dunked off the stage to die hours later in a french mental hospital while being 'treated' for a 'breakdown'.*

*Yes, how will the information affect each of you as the truth settles into your comfortable world and does not fit unless you change what you do, how you do it, and all your relationships with others.*

*Will others with their fingers on their buttons make it?*

*Well, this JUST happened.*

*On November 6th, 2010, I was watching CNN this morning, and they had a reporter at a NASA installation. He was reporting on the final Discovery*

*launch coming up. They ended up catching a security threat unfolding, with video of armed security moving through the area. CNN reported that there was a possible gunman even. A few minutes later, NASA told them it was a routine security check. CNN was clearly upset about this. They were not told about it beforehand, though NASA let them have a reporter there. Also, CNN monitors the scanners for info, and this was not described as a drill.*

*NASA: No Gunman at Ohio Research Facility [Nov 5]*

*<http://www.cnn.com/2010/US/11/05/ohio.nasa.center/index.html?hpt=T2>*

*A security test at NASA's Glenn Research Center caused a brief incident Friday after unconfirmed reports of a gunman in the facility became public. There never was a gunman and no one was in danger at the 350-acre research facility next to Cleveland Hopkins International Airport in Ohio.*

*[and from another]*

*Fuel Leak Forces Another Launch Delay for Space Shuttle Discovery [Nov 5]*

*<http://www.fox2now.com/news/sns-ap-us-space-shuttle,0,6335210.story>*

*It's the fourth delay in a week for Discovery's mission to the International Space Station with six veteran astronauts and the first humanoid robot bound for orbit.*

*Security exercises do not include CNN reporters on site, as it raises the kinds of questions being raised now. Security exercises are to test the reaction time and skill of the security at the installation, NOT to toy with the public's perceptions.*

*NASA is having increasing problems with its personnel, some of which has spilled into the news in the past couple years. An astronaut driving across country in diapers to face an adulterous spouse in February, 2007. A scuffle over a poor evaluation of a contractor resulting in a shooting death in April, 2007.*

*Since that time NASA has gone to extraordinary efforts to keep the mental health of their employees from the press. They have been assisted in this by national security directives, as the reason for the breakdowns is their first-hand knowledge of Planet X.*

*NASA employees going "postal" are secreted away in*

*mental institutions, under very close wraps. No contact with the outside world, including family! It is this or the other alternative, which is to be silenced, permanently.*

*NASA employees must remain silent about the pending passage, and take great care not to reveal what they know by making personal plans for their or their families safety. Being assigned to the ISS or to the shuttle is considered a suicide mission. Debris in the tail of Planet X is slinging around up there, and those forced to stay there are begging to return.*

*This is the reason for the "first humanoid robot" being included on the Discovery's launch that has been seemingly perpetually aborted.*

*Given all that, what occurred within camera range of the CNN reporters? Although the reason for the launch delays are cited as technical problems, the real reason is that those involved in the launch, i.e those who would be on the shuttle of whose support is required for a successful launch, are not stable!*

*Personnel have to be swapped out, and the whole launch routine practiced yet again. The gunman had learned he was going to be part of the launch team, and considered this the equivalent of being asked to put a gun to a friend's head.*

*There is more stress on astronauts than the media is told, as they see things out there than you cannot.*

*They are of course told to keep their mouths shut, that the glowing orb quite visible from above the clouds, near the Sun and looking very threatening, is not to be mentioned among family or friends.*

*No confession to the priest. Can only talk about this among the other astronauts. Their affairs are due to more than long hours at the office! They cannot confide to spouses. People snap. We have mentioned that 43% of the pole shift survivors will be insane to some degree.*

*Often the strongest snap first, as they are putting on a front, holding themselves too tight. End of story.*

*A poor evaluation, at the age of 60, retirement age, is a death sentence. Unless one is expecting to retire, they are in sudden financial shock. Often these types of evaluations are done just as the person is approaching a pension age, when a few more years would make such a difference.*

*NASA hires people who are highly technical, obsessive about detail, have a narrow view of life and can be counted on to stick their nose to the grindstone without*

*glancing up or questioning the big picture. These are also the types who snap. End of story."*

#### **John McCain: Married to the Mob**

*Bob Fertik, February 26, 2008*

John McCain is married to **Cindy Lou Hensley**, the heir to her families Anheuser-Busch beer distribution fortune who could fund his political ambitions. The Hensley saga... swirls with bygone accounts of illicit booze, gambling, horse racing, deceit and crime. The father of McCain's wife, **James Hensley**, was convicted by a federal jury in U.S. District Court of Arizona in March 1948 on seven counts of filing false liquor records. Hensley was also charged with a conspiracy to hide from federal authorities the names of persons involved in a liquor industry racket with two companies he managed, United Sales Company in Phoenix and United Distributors in Tucson, Arizona.

The investigative reporting by Amy Silverman and John Dougherty is remarkably untouched by the Corporate Media, even though it involves the car-bomb murder by the mob of a top reporter at the Arizona Republic, **Don Bolles**.

The umbrella company, United Liquor, at that time held a monopoly in Arizona, organized and managed by **Kemper Marley**, who was **accused of mob ties** by a reporter who was murdered in 1977.

Silverman and Dougherty report that by 1955, Hensley had launched a Budweiser distributorship in Phoenix, "a franchise reportedly bestowed upon him by Marley, who was never indicted in the 1948 liquor-law-violation case – or a subsequent one – despite his controlling role in the liquor distribution businesses."

According to Marley's longtime public relations man, Al Lizanetz, the Marley liquor empire was founded by the **Bronfman family dynasty** of Canada which operated Allied Finance Company, Northern Export Company and Distillers Corporation – the Seagrams, Ltd. empire.

The Bronfman family made millions in bootlegging, accounting for half the illegal liquor crossing the border, working in a profitable distribution deal with the infamous mobster Meyer Lansky, who later moved on to establish the crime syndicates in the casinos of Havana, Cuba, in the 1940s and 50s.

Arizona in the 1970s drew a "who's who" of

organized crime figures seeking to retire in the sun, including Rochester, N.Y., mob boss Joe Bonanno, who spent his last days along the Lake Havasu shores and in a quiet home in Tucson, Arizona.

Hensley's mob ties aren't a secret - they are documented in court papers and investigative reporting, however, McCain's family scandals are blacked out by the Corporate Media.

The Corporate Media blackout of the Hensley family fortune is especially surprising because it included the murder of reporter Don Bolles of the Arizona Republic, the largest newspaper in the state. The Hensley family was involved with some of the most notorious crimes committed in the state of Arizona, primarily the killing of, Don Bolles. The key is Kemper Marley who was a liquor magnate. He controlled land in central Arizona. Marley was implicated, but not charged in the murder of Bolles. It was Marley who gave the liquor franchise to Hensley back in the 1950's, and that built their empire from there.

Bolles had been writing a series of stories that were very critical of Kemper Marley. In 1976, Marley wanted to get a key position on the racing commission in the state of Arizona. The Arizona Republic refused to run the story because the I.R.E. was critical of Senator Goldwater and his family as well.
