

## A Physical Source for the Plagues of Revelation

**Summary– The Destroyer (Abaddon, Apollyon of Revelation) is a large astronomical body smaller than an average brown dwarf. The Destroyer has an orbit that brings it very close to Earth. The period of Destroyer's orbit is approximately 4300 years. Destroyer's orbit crosses the plane of our orbit in both the spring and the autumn of the year. Destroyer is due to make a close pass in the very near future.** I have developed a timeline of the events of the Book of Revelation based on the recorded history of catastrophic events in the past with a focus on the Exodus combined with ancient and modern prophecies. The timeline is based on simple astronomy models using conservation of energy, Kepler's Third Law, Newton's Second Law, and Newton's Law of Universal Gravitation. I implemented an orbit derived from history and prophecy on Starry Night<sup>1</sup> software, captured position and velocity data, and then estimated the effects using Newton's Laws. If we encounter a body as large as Saturn<sup>2</sup> at a distance as close as 0.010 AU, the Earth will likely undergo a pole shift and a change in orbit. From the time of first discovery of its Herald, until the Destroyer disasters associated with the 6<sup>th</sup> and 7<sup>th</sup> Seals and the 1<sup>st</sup> through 7<sup>th</sup> Trumpets could be as little as 39±3 days, and the time between the 6<sup>th</sup> Seal and the 7<sup>th</sup> Vial might be on the order of 70 days. Fear will cause a collapse of civilization as we know it beginning before the first impact<sup>3</sup>. The effect of this encounter will be lasting and devastating. Following the last impact, there will be a mini-iceage worse than the *Year Without a Summer* (1816 CE) and it may take over 275 years for Earth's temperature to recover. A proposed timeline<sup>4</sup> is provided<sup>5</sup> at the end of the paper along with some suggestions to cope.

### Primary Historical and Prophetic Sources of Information

1. Holy Bible, Books of Revelation 6-16, Exodus, Isaiah 30, Matthew 24, Luke 21, Genesis
2. Egyptian history: Ipuwer Papyrus, The Kolbrin, manuscripts 3-6, Book of Creation, Deluge
3. Immanuel Velikovsky as a source for Chinese, Indian, and Mayan information
4. Wikipedia, the online encyclopedia for all the constants and equations
5. Visions and Prophecies given to Haniel<sup>6</sup>
6. Ice Core Data from Antarctica, specifically the GRIP series of <sup>18</sup>O analysis<sup>7</sup>.

<sup>6</sup> Haniel is a resident of the southwestern United States. She leads an unassuming life rearing her three children. She began receiving visions and prophecies starting approximately May 2002. She has kept a diary, and some of those visions are specifically referenced herein. Selected visions and prophecies are provided as Appendix 1.
