The Destroyer Passage of 2011

The financial decay that Father declared would be the first trial¹⁰ has already started with the collapse of Stock Markets worldwide in the autumn of 2008 CE after peaking in the autumn of 2007 CE. With one milestone acknowledged to be "in progress"¹¹, another is staging. Iran and Israel are preparing for nuclear war. I believe the next milestone we can expect to see is the fall of Jerusalem to Muslim armies led by Iran and supported by their allies Syria, Turkey, Hamas, Russia and China. Shortly thereafter, the events in Revelation will unfold.

1. The fall of Jerusalem¹² ... people seem to be rushing to war to better position themselves for the great changes that will occur after the passage of the Destroyer, rushing to use advanced weapons systems that may not work at all after Destroyer enters the inner solar system. There is concern in several quarters that the war will start yet this year (2010 CE).¹³

Figure 2 ... This is the view to the southeast approximately where Haniel first witnessed the Herald, visible in broad daylight as a red cross in the sky.

¹⁰ Book of Haniel 6-27-02 #2

¹¹ *ibid* ... Blood has not run in the streets yet, nor have the most terrible parts of visions involving cannibalism and other of the most vicious acts of social breakdown occurred yet. Money still has some value over the paper on which it is printed or the metals onto which it is stamped ... however, with the bankruptcies of several countries and states (California, USA, Greece, Italy, Spain, England, Portugal, ...) imminent, we could be very close to those.
