

Part 6) Alex Jones: Ebola Vaccine has Plague Virus [Deadly Bird Flu] Implanted. Panicky Public Clamor for a Vaccine Against Ebola will Trick People Into Triggering Global Bird Flu Contagion, Plague

In March of 2009, pharmaceutical giants Baxter and Bayer attempted to infect the populations of 18 countries with a deadly laboratory-made bird flu which -- when introduced to sizable populations -- was certain to mutate and/or recombine with the non-lethal airborne seasonal flu virus in the vaccines which health departments of nations typically dispense to their citizenries. This means that the lethal, but non-airborne bird flu virus would become airborne to unleash a worldwide plague via the masses who are deceived into clamoring for the vaccine, their perceived agent of protection, which would have ironically been the agent of their demise.

However, the eighteen victimized nations detected the lethality of this Baxter/Bayer trojan horse concoction, and voiced strong objections to this genocidal plot by "Big Pharma."

Today, a comparably malicious plot is likely being foisted upon the world. Judging by their past treachery, we can be sure that this deadly ebola virus has been concocted in a laboratory and is being released by the very same demonic bio-weapons producers, ensconced atop the pyramid of world power, along with the corporate/banking/royal ruling elite of the world -- all self-proclaimed depopulation "eugenicists," swinging the bloody sickle of plague death, exterminating the growing (and hence, threatening) populations of all nations, rich and poor, from Bangladesh to the United States.

This ebola scare is Act I of the plot to panic the people and thus make them clamor for a vaccine against ebola. What they will get is an injection of deadly bird flu, which the bio-weapons producers have recently bio-engineered to go airborne, so that breathing air and touching objects will spread the bird flu to one and all.

In the following expos'e by Alex Jones, in March of 2009, we have staunch evidence to prove that "Big Pharma" was attempting to trigger the worldwide bird flu plague by first sensationalizing the bird flu threat, and then matching that sensation with a high-pitched television campaign to give everyone their free flu shots at a most auspicious time, during the winter flu season. They tried to infect us with a lethal bird flu-spiked seasonal flu vaccine five and a half years ago -- but they got caught and their plot was foiled. So, now you know that this ebola scare is their next attempt to trick us into clamoring for an anti-ebola vaccine, which they are secretly implanting with the deadly, and newly airborne, bird flu. Dr. TIM O'SHEA: [Comments within {braces} are mine. JD]  
"When I discovered Horowitz's book I had just finished a chapter of my own book, entitled The Sanctity of Human Blood (amazon). Now I must go back and rewrite that chapter, in light of the immense body of research which Horowitz has brought forth.

{This book by Dr. Leonard Horowitz:} EMERGING VIRUSES: AIDS and EBOLA, is a pivotal work, a landmark book. . . . Dr. Horowitz has thoroughly demonstrated the plausibility and likelihood that the AIDS virus was deliberately manmade; it was deployed into populations in Zaire, New York and San Francisco. It was a longterm biological \*weapons\* project . . . the {powerful bio-weapons} players are still in control. The AIDS virus will bring {has brought} billions in research, worthless drugs and vaccines, and political leverage. {In this book} the dynamics of vaccine development are brilliantly illuminated: the international pharmaceutical industry {big pharma}, the governments of the United States, Germany, and England, the arms dealers, and the international banking institutions. This is the milieu in which the current vaccination program at large today in the U.S. must be {truthfully} evaluated. Health, immunity, disease control, infant mortality -- these issues are secondary to the economic and political forces in play. {In fact, health issues are of no concern at all to these vicious biological weapons producers who have made themselves executioners over the populations of all nations, rich and poor.} . . . The entire concept of vaccines as a treatment for any disease should now be re-thought in the light of Dr. Leonard Horowitz's stunning work."
