PRES. OBAMA:

"I have two words for you: Predator Drones. You will never see it coming! . . . You think I'm joking?!"

This is a ghastly threat to the American people, declaring that they can be assassinated stealthily from the sky, merely at the whim of murderers in our federal government who have already perpetrated the drone slaughter of thousands of innocent civilians in foreign countries, most of whom were women and children, and all of whom were not even identifiable by the sky snipers, much less charged with a crime, much less tried and convicted of even the mildest crime. These sky drone snipers cavalierly slaughter strangers on the ground via a video screen thousands of miles away.

Well now, this terroristic program of sky assassinating uncharged, unconvicted victims is being extended to Americans. Obama's threat is clear: If you are Disliked, you can be Assassinated by "Predator\* Drones. A predator sneak attacks its helpless unsuspecting victims.

Any journalist who ignores his moral imperative to alert Americans to this Hitler-level program of mass murder in America deserves to turn in his credentials and allow someone to take over his job of opposing Naziism. Millions were slaughtered by Hitler because journalists failed to alert the people before the cost of their courage was measured in blood.

You know that drone assassins will target the growing multitude of activists and journalists who are now opposing the iron fist of tyranny which is abruptly smashing down on all of us. What, then, will you do to protect millions of imperiled Americans exercising their right to speak and assemble against tyranny here at home?

President Oh-Bomb-us has proclaimed his vow to bomb us -- you and me -- if we cry out in our growing state of suffering under tyranny.

Journalists, professional and amateur, we must quickly alert the citizenry, and alert small TV, radio, and print news media . . . or else we will be bombed from the skies for speaking as free Americans.

Let US Get Fired Up, or Get Fired Upon!
