This morning, Glenn Beck appeared on TheBlaze TV with Mark Herr and David Barton. Beck blamed some of the U.S. citizens for being violent during demonstrations at the site of the U.S. Gov't Nevada land theft, while strongly implying that the Federal snipers were just doing their jobs. Also, Glenn Beck and David Barton concluded that the citizens of the United States are to blame for the Government land theft because so few Americans vote. Then they both heralded the great "candidates" coming up in the next election.

So there you have it, America. The Federal Government stole the land in Nevada because you failed to vote. JD
