

Glenn Beck,

This is the man whom you should be endorsing. Just go to YouTube and type in:

"An Honest Israeli Jew Tells the Truth About Israel.

Why the Son of an Israeli General is Speaking Out for Palestine"

If you were to endorse Miko Peled, Israel would remain militarily strong while nourishing and flourishing peace and security that stems from mutual respect and brotherhood among all peoples of the Middle East.

Your endorsement of Netanyahu, the race exterminator, is precisely what foments hatred, animosity and peril for Israel from the Arab race that Netanyahu is exterminating, and thus, you are helping to imperil both the Israeli people and the American people. You are intelligent enough and rational enough to approve of that self-evident truth.

You, Glenn Beck, are risking a nuclear war by endorsing this truculent, trigger-happy megalomaniac who has openly advocated sneak attacking Iran, when

A) Iran has a tiny fraction, if any at all, of the nuclear missile delivery capability that Israel has; and

B) Russia has vowed nuclear retaliation if Netanyahu sneak attacks Iran.

Netanyahu's sneak attack would mean that the entire Israeli population would surely be doomed to death by nuclear incineration and by leukemia. This would also mean that you, your children, and your "RealNews" team would be nuked, since Russia and China would likely target Houston, Texas.

The American people do not want to be incinerated because you, a bonehead pied piper to conservative Americans, are backstabbing us by mustering support for this race exterminator, and trigger happy sneak attack bomber, Netanyahu. John DiNardo
