

In the following documentary video, you will see Israeli soldier Eran Efrati reveal the frightening fact that New York City police, Baltimore Police, and police officers from countless American cities and towns are being sent to Israel to be trained by brutal Israeli soldiers on how to shoot people on the streets of San Francisco, Denver, New York, Baltimore, etc. using the "deadliest tear gas cannisters" and other deadly weapons to mow down American citizens, just as Israeli soldiers have been mowing down women and children on the streets of the occupied territories for the past sixty years. If you and I fail to relay this warning to other Americans, then some of our children will surely be murdered on our streets and even in our own homes, as this video documentary proves. Personally speaking, there is a remote member of my family who was a high-ranking New York City police officer, and who was sent to Israel for training. When he returned to the United States, he was transferred from NYPD to the U.S. Federal Emergency Management Agency (FEMA). Just as with Hitler's Nazi Gestapo police, this proves that America's local police are being \*federalized\* and turned into a national police force, subservient, not to the U.S. Constitution, but to the murderous dictates of the Zionist ruling aristocracy, ensconced atop the global power pyramid. This vicious minority of power-grabbers is now secretly tyrannizing America. Citizens on the streets of Israel will also be, and are now being, tyrannized. It is just a matter of time before common citizens worldwide will feel the suffocating yoke of global tyranny. Time is fast running out for free Israelis, for free Americans, free Britions, free Frenchmen, free Germans, etc.
