~~ Israeli Troops to Occupy America's Streets ~~

In the following documentary video, you will see Israeli soldier Eran Efrati reveal the frightening fact that New York City police, Baltimore Police, and police officers from countless American cities and towns are being sent to Israel to be trained by brutal Israeli soldiers on how to shoot people on the streets of Baltimore, Denver, San Francisco, etc., using Israel's "deadliest tear gas cannister" and other deadly weapons to mow down American citizens, just as Israeli soldiers have been mowing down women and children on the streets of Palestine for the past sixty years. If you and I fail to relay this warning to other Americans, then some of our children will surely be murdered on our streets, and even in our own homes, as this video documentary proves. Even Jewish-

Americans will be subjugated, oppressed, beaten and murdered on our streets. Realize that clubbed and bleeding Orthodox Jewish protesters now litter the streets of Jerusalem, Tel Aviv, and Haifa.

Personally speaking, there is a remote member of my family who was a high-ranking New York City police officer, and who was sent to Israel for training. When he returned to the United States, he was transferred from NYPD to the U.S. Federal Emergency Management Agency (FEMA). Just as with Hitler's Nazi Gestapo police, this proves that America's local police are being \*federalized\* and turned into a national police force, subservient, not to the U.S. Constitution, but to the murderous dictates of the Zionist ruling aristocracy, ensconced atop the global power pyramid. This vicious minority of power-grabbers is now secretly tyrannizing America. Citizens on the streets of Israel will also be, and are now being, tyrannized. It is just a matter of time before common citizens worldwide will feel the suffocating yoke of global tyranny. Time is fast running out for free Israelis, for free Americans, free Britons, free Frenchmen, free Germans, etc.

Israeli Snipers Shoot U.S. Marines  
<https://vimeo.com/152431534>

[video footage from sniper's camera]

Israeli snipers have special rifles, which our taxed salaries have bought for them to assassinate U.S. Marines. There is a camera mounted on the rifle to video record these assassinations. The picture will vibrate for an instant due to the recoil of the rifle as it fires. Look for the faint red bulls eye circle around the U.S. Marines, whom these hateful Zionazis are targeting. I never use the word "Jews" because it is not the Jewish people, per se, but the culprits in all of this are our Zionist elite rulers whose plot is to make Americans (TV-dumbed-down Americans) hate Arabs, so that American Soldiers and Marines will obediently bleed and die for our ruling elite's lust to take over seven Middle East nations in five years, as U.S. Army General Wesley Clark revealed in his vital alert to the American people, which you can see on YouTube. Forward this email to as many active military personnel as you can find on the Internet. Forward this email to inactive military, to retired military, to military families, to patriotic Americans. Save some Marines' lives. Save the lives of many innocent American civilians whom the Zionazi ruling elite will annihilate in their next World Trade Center holocaust -- in Chicago, or in Los Angeles, or in Houston, or wherever. These devils will perpetrate another false flag holocaust to blame on Arabs, because they need a bigger war to cover up their imminent collapse of our economic system, to inflict poverty upon all of us, making the rich richer, and the poor poorer, as always. The following message was sent to me by a colonel in the Special Forces of the U.S. Army:

"John,

I have an independent DVD of these killings that I got while in Afghanistan back in 2003... Our guys knew about these Israeli sniper attacks a long time ago... They were purposely kept up to escalate the war, designed to make our guys really angry at the Arabs ... Our Marines actually took out several of these snipers and were able to identify them as Israelis -- and the "video autos" [from the rifle cameras] were copied in the U.S. for use by our Special Operations guys... Interesting, I know ... I learned to never trust the Israeli Government... It's not the people, but the Israeli Govt... Same as ours..."
