

We judge people by their character, not by their bloodline. Will you aid the cause of human rights by using your voice to exhort Jews and Gentiles, Americans and Israelis, Britons, Arabs . . . all citizens of the human race . . . to focus our money and our efforts on prosecuting these murderous Zionist military fiends, American military fiends, and generally, such culprits who have committed atrocities under government authority, such as U.S. Air Force drone jockeys, CIA torturers who condition their torture victims at Guantanamo to become ISIS/AlQaeda fiends, Israeli pilots and soldiers, etc. Decent human beings must rise up and unite against Satan's murderous evil, now enveloping the world. Stand up with your God now, and to Hell with fearing Satan's blood-thirsty and illegitimate governments of the United States and Israel, whose principles of decency have long since been subverted and subordinated by Satan-worshipping tyrants such as the Bush family of the satanic Skull and Bones secret society, who were complicit in the assassination of President Kennedy.

This brave Israeli woman shows us how many among the human race are now willing to defy Satan's evil rulership of the powerful war-mongering first world nations; namely, the United States, Britain, and Israel, and we are now pledging our allegiance to God, and no longer to Satan's captured American flag.
