

LaRouche Plan: Preempt Coming Thermonuclear War (8-26-13)

We must spread the word throughout the Internet:

New York, Los Angeles, Houston, etc. may get *nuked* by Chinese and/or Russian missiles resulting from the Netanyahu gang of "crazies" forcing the United States military to light the fuse to World War III by unjustifiably attacking Syria, thus igniting wholesale conflagration throughout the Middle East.

If we merely read this sensible plan by Lyndon LaRouche, and fail to flood the Internet with his plan for preventing thermonuclear war, then many of us will be dying slow agonizing deaths from radiation induced leukemia.

Either we strive now, or allow them to holocaust humankind. John DiNardo
