

Part 2) Netanyahu Faked Murders of Jewish Teens to Justify Bombing Gaza

This report leads one to suspect that Netanyahu is now, for the first time, forced to do damage control; he is chameleoning or reshaping his initial accusation that Hamas murdered the three Jewish teenagers. This Netanyahu fallback to a safer lying stance may be because I and others have been getting close to the truth: that either Netanyahu had the three Jewish boys murdered or that he faked their murders. Remember, those *alleged* murders of Jewish boys came at just the opportune moment when Netanyahu was setting up military plans to bomb Gaza. How fortunate for Netanyahu that these murders of Jews came at a moment when Netanyahu needed to deceitfully incite outrage and hatred against Palestinians in order to justify his desired bombing blitzkrieg over Gaza, and then launch a ground assault of IDF Zionist fiends who enjoy shooting pregnant mothers in their stomachs. These Zionazi fiends call their sport Two-Kills-for-One-Shot". John DiNardo

Study the photos of the claimed Jewish murder victims. Do you see discrepancies in their facial characteristics?

Part 3) Netanyahu Faked Murders of Jewish Teens to Justify Bombing Gaza

First you must study the genuine emotional reactions of mothers to the loss of their children. Then observe the utterly bogus emotional reaction of a crisis actor pretending that her son had just been murdered. Factor this fakery in with the several other exhibits of Netanyahu's fraudulence (presented herein), and one begins to realize that we citizens of humanity must force Netanyahu to provide the bodies of the three Jewish victims, in order to ascertain their identities, and to ascertain the cause of their deaths. If he refuses to surrender the bodies -- which he will -- then we, the citizens of humanity must bring Netanyahu before an international tribunal and try him for war crimes, and for concocting false provocations against the State of Israel leading to the horrific murders of many hundreds of innocent men, women, and children, most of them Palestinian, and some of them Israeli.
