

Israeli journalist Lia Tarachansky provides much circumstantial evidence indicating that high level Israeli officials actually perpetrated the murder of the three Jewish teenagers. Based upon Norman Finkelstein's attentive analysis of Netanyahu's anger and frustration over U.S. disobedience to his edicts these past several months, Netanyahu is decidedly the prime suspect in the murders of the three Jewish teenagers, just as similar anger and frustration led him to press for the attacks upon the World Trade Center in 2001 following international dissatisfaction with his hostility toward peace. Netanyahu's culpability in the 911 attacks is firmly believed by many 911 researchers over these past 13 years. Netanyahu's motive in the murders of the three Jewish teenagers is evidently to once again disrupt the peace process, and to launch an insanely hitlerian genocidal attack upon the dense civilian population of Gaza. Netanyahu again shows himself to be yet another bloodthirsty Israeli prime minister of the genre of the infamous butcher of Sabra/Shatila, Ariel Sharon. JD
