

The evidence is all here, within the embedded links of the multi-layered reports, linked below. They deleted the Jesse Ventura TruTV documentary showing the global elite's underground cities, into which they intend to descend just prior to triggering global nuclear conflagration in the Middle East. Afterward, they intend to ascend, neutralize the radioactive contamination in their planned headquarters sector of the World, and then promptly establish their brutal One-World Dictatorship, under the deceitful premise that global governance is the only way of preventing the recurrence of this nuclear HUMANICIDE, which they are now plotting, and which they hope to ignite soon, before known incoming comets electrically excite the Sun to emit scorching solar blasts and gravitational molestations upon Earth's crustal surface and Earth's underlying viscous mantle.

It is neither on YouTube nor on Vimeo; I can no longer find Jesse Ventura's TruTV broadcast of the ruling elite's underground city, within the bowels of Cheyenne Mountain in Colorado. However, I did record Jesse Ventura's CONSPIRACY THEORY, Apocalypse 2012 episode, and I will upload it to Vimeo and YouTube -- but you need to download it as soon as I email you the forthcoming link, because the false-flagging, war-triggering, diabolical global ruling elite will likely delete it.

They are planning to nuke all of us, folks!
