

Part 2) Planet X Incoming: N.A.S.A. and The Bible Agree

Bible prophecy converges with N.A.S.A.'s "Search for Planet X," conducted primarily by Dr. Thomas Van Flandern and the chief astronomer of the Washington D.C. U.S. Naval Observatory, Dr. Robert S. Harrington.

Pastor David J. Smith interprets Bible prophecy, alluding to the Earth cataclysms which God told His prophets would occur in what the Bible terms "the end time" or "the last days." Many Bible scholars consider this prophesied time of Earth cataclysms to be our present and near future.

I added the music. JD

The WASHINGTON POST:

The U.S. Government's National Aeronautics and Space Administration (N.A.S.A.) excitedly announces the discovery of Planet X, which they then deceitfully call "a mystery body," after previously calling this object "the long sought Planet X" eleven months earlier in a landmark NEW YORK TIMES report heralding the launch of N.A.S.A.'s Infrared Astronomical Satellite. N.A.S.A.'s I.R.A.S., they stated, was built and launched with the specific mission of sighting that infrared light-emitting brown dwarf star which Dr. Harrington and others called "Planet X." Astronomers estimate brown dwarf stars to be as massive as one thousand Earth-masses, as a minimum estimation. JD

The NEW YORK TIMES: "Clues Get Warm in the Search for Planet X": N.A.S.A. and other leading astronomers and astrophysicists proudly herald the launch of their Infrared Astronomical Satellite, and they declare that the purpose of this mission is to sight what they term, "the long sought Planet X."
