

## Part 2) They're Trying to Kill Dr. Bradstreet's Colleague

They're Trying to Murder Dr. Bradstreet's colleague, Mary,  
and Then They Will Exterminate the Masses by Infection.

They have already murdered numerous doctors.

They shot Dr. Bradstreet twice in the chest.

They beat to death Dr. Teresa Sievers.

\*You and I and millions of other "useless eaters" are now targeted  
for death by Injection-Infection.

\*Forward this message to many, and perhaps you can save Mary's  
life, the lives of many millions, and you might save your own life, too!

JA DiNardo,

Please read this email thread and send my links out ASAP  
after reviewing Mary's story. Mary is the last surviving member  
of the inner group of medical researchers, INCLUDING DR JEFF BRADSTREET, that were  
about to go global with GcMAF conclusive  
evidence.

Mary said she DOES NOT NEED MONEY! What she wants from  
the world is to review her work and to spread word of her story.

Mitch,

Thanks so much for putting me on to Mary's dire plight. Her  
situation is critical, and time is of the essence. The implications of  
her story has me astounded so much I am putting her on top priority.  
I'm going to put something together for my net friends ASAP.

I have been researching and publishing no budget videos for years.  
My Nano Vaccines video below is on target with GcMAF and the  
political national mandatory vaccination initiative intended to restrict  
informed consent. We are living in desperate times, my friend.

You see, after years of research, my view is vaccines are being  
used, and are going to be used, for depopulation and political control.  
In other words, as a weapon of mass destruction, regardless of what  
anyone thinks about whether they can be made safe and effective.

This holistic dead doctor controversy reinforces my opinion. As  
Mary says 'she is the last of an insider GcMAF group of researchers  
who were about to revolutionize medicine, and, by default, break the  
eugenics slow kill for profit agenda of the medical mafia wide open.  
She was a close associate of Dr Jeff Bradstreet and she also said  
she spoke with him just after his office was raided by the FDA.

What story can be bigger than this right now?
