

__ Help! Women to be Drafted into Coming War __

The U.S. Congress has now mandated that all young women be forced to possibly sacrifice their lives in deadly combat against fierce Russian marines and soldiers.

__ You can help to save the lives of many thousands of unwilling and unable young women -- and you can help in a very easy way. First, view the entire video which I have linked within the tweet below. The 30th and final minute of this video is *most* vital to saving the lives of our young women! Then, on twitter.com, simply compose the following tweet, appending several #hashtag words, all totaling less than 141 characters. Tweet this same message several more times, appending other #hashtag words (suggested below). In a few minutes of your time *each* day, you can help to save the lives of thousands of our young women who will soon be murdered in forced military combat -- in a fraudulent war that our rulers are promoting against Russia; a war now being hyped up by our television mass media -- the media which all honest political researchers admit is owned and operated by our corporate war-generating "Military-Industrial Complex," so-named and so-forewarned of by President Dwight Eisenhower in 1961. __ The twitter congregation of Americans who tweet these same #hashtag words (shown below) will see your tweet, and they will view this video's shocking reality about the female draft and the planned war against Russia, which now threatens to kill thousands of our female loved ones.

__ Each day, different congregations of Americans are viewing tweets posted at the same public twitter pages addressed by each of these #hashtag words. Therefore, on the pages of these same #hashtag words, a whole different audience of Americans will appear each day to view this video about the impending fate of their female loved ones. __ Please always remember that The Life You Save May be the Life of Your Sister, Wife, Daughter, Niece, Girlfriend, Neighbor, CoWorker . . . Or it May be Your Very Own Life.
