

There are evil men in power around the world engaged in creating hatred and fear between peoples. That is how Hitler was able to convert many Germans to barbarism. We must thwart these devils now, before they have deceived Jews, deceived Gentiles, and deceived Arabs slaughtering each other. We must work now to thwart these evil warhawks. I will post evidence showing that they are using this Gaza annihilation to spark anti-Jewish riots in Europe and in the United States. I assert that these anti-Jewish riots and anti-Arab riots will be used to emotionalize the peoples of the U.S. and the European nations into accepting a sequence of carefully calculated provocations designed to trigger World War III, likely, a nuclear war. That would spell the annihilation of Israel and of the surrounding Arab nations -- and it would fling the world back into the dark ages . . . that is, the remaining few who survive global radiation-induced leukemia.

Many Israelis and Jews around the world are in anguish over the horrific slaughter that is raining down upon the densely confined, caged civilian population of virtually *unarmed* men, women, and children. Let us consider this! Would we have passively accepted Hitler's annihilation? John DiNardo

"In 1940, German occupational authorities began to concentrate Poland's population of over three million Jews into a number of extremely crowded ghettos located in large Polish cities. The largest of these, the Warsaw Ghetto, concentrated approximately 300,000 to 400,000 people into a densely packed, 3.3 km² central area of Warsaw. Thousands of Jews died due to rampant disease and starvation under SS-und-Polizeiführer Odilo Globocnik and SS-Standartenführer Ludwig Hahn, even before the mass deportations from the Ghetto to the Treblinka extermination camp began. . . ."
