

What's Ailing America?

THE GENOCIDE AND TYRANNY CONTINUE TO ESCALATE

Rebecca Carley, MD

www.reversingvaccineinduceddiseases.com

As we are being distracted with yet another psyops that many embassies are being closed due to “chatter” that Al Qaeda (i.e., Al CIAda) is getting ready for another terrorist attack that will give the psychopaths an excuse to continue their endless war against the terror that the CIA is creating, so much is happening that you need to know about. I know that facing reality is very depressing, however to NOT do so is suicide. I continue to give you information that you can share with others so we can reach the critical mass of humanity necessary to put a stop to the destruction of everything that matters.

Let's start with bananas...which are apparently not long for this world, thanks to the bioterrorism company Monsanto's Roundup: <http://www.gaia-health.com/articles501/000518-fungus-disaster-monsanto.shtml#.UfJp0qw8xDw>

Here you will learn that “bananas are dying. They're killed by a fungus, one known to be caused by glyphosate [in Roundup], which is used on bananas. But the loss of bananas may be only the tip of the disaster. The bananas we eat today are not the same ones that were eaten in the first half of the 20th century. Those were tastier and creamier. They were lost to monoculture. A fungal infection, Fusarium, couldn't be overcome because nearly all bananas were clones, and therefore susceptible to the same disease. The bananas we eat today, a different variety that had been secure from Fusarium are now falling to *the same fungal infection*. Agribusiness responds simply by closing up shop where the disease has taken over and starting up in a new area. In true earth scorching approach, they walk away from their disasters and do exactly the same thing elsewhere, thus recreating the same disaster again and again.”

Making it crystal clear that Monsanto is a terrorist organization, we now find out that they have purchased Blackwater: http://therebel.org/index.php?option=com_content&view=article&id=671755:yes-monsanto-actually-did-buy-the-blackwater-mercenary-group&catid=108:liberty&Itemid=1220

“A report by Jeremy Scahill in *The Nation* revealed that the largest mercenary army in the world, Blackwater (later called Xe Services and more recently “**Academi**”) clandestine intelligence services was sold to the multinational Monsanto. Blackwater was renamed in 2009 after becoming famous in the world with numerous reports of abuses in Iraq, including massacres of civilians. It remains the largest private contractor of the U.S. Department of State “security services,” that practices state terrorism by giving the government the opportunity to deny it.” As global protests take place against Monsanto

(<http://www.usatoday.com/story/news/world/2013/05/25/global-protests-monsanto/2361007>),

one can only wonder if these mercenaries are being used to infiltrate the protestors, or worse. Of course, as I have reported before, the traitors in the district of criminals actually voted NO to the labeling of GMO food

(http://www.naturalnews.com/040523_monsanto_71_farm_bill_senators.html), which by itself should have activated the American people. The only thing more dangerous to our genetic

integrity than genetically modified food is bioweapon vaccines. Many people have been educated as to the dangers of vaccines, and are just saying NO to the inoculations being pushed on them. However, since we are not allowed to know what GMO's we are putting in our mouths, many are unwittingly ingesting these Frankenfoods. In fact, it has now been reported that even supplements are often laced with GMO's: <http://wakeup-world.com/2013/07/23/the-majority-of-supplements-are-now-laced-with-gmos> .

How far will these mad scientists go to alter our food? Apparently, the sky is the limit, as we now learn that "beef" is being created in laboratories:

http://www.naturalnews.com/041513_stem_cell_beef_Skynet_factories_future_tech.html

"The era of robotic, factory-produced test tube hamburger meat is nearly here. Yesterday, the first stem-cell-grown hamburger "meat patty" was grilled up and consumed by taste testers who declared it edible. The burger cost \$332,000 to "grow" in test tubes, a project spearheaded by vascular biologist Mark Post of Maastricht University, reports [The Guardian](#). " Yum. Of course, as chemtrail and HAARP induced droughts and floods destroy ever more crops across the globe, I predict it won't be long before we are eating "soylent green", a movie made in 1973 to "get us ready" for the times we live in: check out <https://www.youtube.com/watch?v=9IKVj4I5GU4> for the trailer, and <http://www.imdb.com/title/tt0070723/plotsummary> for the plot summary. You will see it states that "in the year 2022, overpopulation and the **greenhouse effect** have made life extremely difficult for the majority of people. The population of New York City is 40 million and the constant heat is unbearable. The city's infrastructure has broken down. Water is rationed and fresh food is virtually non-existent". I found it very telling that the "greenhouse effect" is mentioned in this 40 year old movie as an excuse for the lack of food...an excuse we live with today. Of course, since CO2 is used by plants to undergo photosynthesis and create oxygen for us to breathe, this is an obvious excuse for the damage being done by chemtrails. Interestingly, the National Academy of Sciences is pretending it is "considering" geoengineering (although they have been doing it for over a decade): <http://www8.nationalacademies.org/cp/projectview.aspx?key=49540> . As often occurs, environmental Scientists Eugene Franklin Mallove, Juventina Villa Mojica and Dorothy Stang were murdered after releasing lab test results linking chemtrails to the mass death of fish, plant and animal life:

http://www.youtube.com/watch?v=xDF_dAuZXnM&feature=youtu.be

One of the most disturbing articles I received from my clients and listeners was the following: DARPA TO GENETICALLY ENGINEER HUMANS by adding a 47th chromosome:

<http://www.activistpost.com/2013/07/darpa-to-genetically-engineer-humans-by.html>

Here you will learn that "DARPA, the Department of Defense's research arm, has just put out a new solicitation for a project called, "[Advanced Tools for Mammalian Genome Engineering](#)" on the government's Federal Small Business Innovation Research (SBIR) site.

This project isn't just for engineering any mammal's genome, however; **it's specifically for the bioengineering of humans**. How far is humanity going to let these psychopaths go before they rise up and say NO MORE?

And lastly, for any of you who beLIEve their elderly loved ones are safe in nursing homes, check out the following: ***WW2 Hero Refuses Medical Care, So Police Kill Him in His Nursing Home***:

<http://healthimpactnews.com/2013/ww2-hero-refuses-medical-care-so-police-kill-him-in-his-nursing-home>

I will leave it there for this week...much more to follow. Please spread the word....

If you need help in reversing your disease with natural therapies. please go to <http://www.reversingvaccineinduceddiseases.com/services> to learn how Dr. Carley does consults. (Note that Alzheimers can also be reversed as long as there is family available to give the person their remedies). You can access many archives of internet shows Dr. Carley has done over the last few years at <http://thelightofdayradioshow.com/archives/RBN-BACKUP/commercialFree.html> .. Dr. Carley's "What's Ailing America?" can now be heard on www.freedomslips.com, studio B, every Saturday from 6-8 PM EST.
