THE WORST CASE OF VACCINE DAMAGE I HAVE EVER ENCOUNTERED

Rebecca Carley, MD

I have been teaching people how to reverse their diseases with natural therapies for about 16 years. My research has convinced me beyond a shadow of a doubt that corruption of the immune system caused by inoculation with what I now realize are bioweapon vaccines causes essentially all diseases under the "internal medicine" umbrella, including all autoimmune diseases, seizures not caused by trauma, as well as cancer. In fact, it is obvious to me that vaccine induced diseases are the biggest epidemic the world has ever known. Yet, almost never do the white coats admit that vaccines are involved, even when the vaccinee's symptoms manifest themselves within hours of the biological assault.

I receive phone calls and skypes from people all over the world who are seeking help with the devastating effects that vaccines given to themselves, their children or their pets have caused. The white coat always denies any possible link to vaccines, even when the result is seizures (which is one of the few side effects admitted to in the vaccine information statements put out by the CDC which are supposed to be given out *before* vaccines are administered). The tragic consequences of the insane vaccine agenda on families has brought me to tears many times. Children with cancer (especially brain cancer), renal failure, brain disorders of all kinds (especially autism), insulin dependent diabetes, juvenile arthritis, toddlers with strokes and heart attacks after vaccines, etc., etc., etc. However, the most heart wrenching devastation was related to me by a mom from Florida, Joanna Rydzewski, who was a guest on my internet radio show on 8/17/13. The you tube archive of that show can be found at <https://www.youtube.com/watch?v=XzjGXA7LXI> .

Without question, the consequences of vaccine damage on Joanna's son are the worst I have ever encountered. Joanna's son, now 29 years old, started out having seizures after his DTP vaccine. Subsequently, he developed autism (and is non-verbal to this day). He also went BLIND, and has renal tubular acidosis (a disease of his kidneys which causes him to be acidotic). He has had several incidents of cardiac arrest as well; were it not for his Mom knowing CPR, he would be DEAD.

The mechanisms by which vaccines cause disease are discussed in my paper "Inoculations the True Weapons of Mass Destruction" which can be found at www.drcarley.com . Neurological vaccine damage is primarily due to demyelination, where the myelin sheath on nerves (which is an insulator like the plastic coating on an electrical cord) is attacked by antibodies. The damage caused by the autoimmunity itself (i.e., antibody against self) has several mechanisms, including the following:

1. The antigens present in the culture media itself cannot be completely filtered and separated from the organisms cultured thereon. Thus, any antibodies formed against antigens from the *culture cells themselves* (for example myelin basic protein from chick embryos or the 13 vaccines which now contain aborted human

fetal cells) can cross-react to form an autoimmune reaction against the myelin basic protein in your myelin sheath, etc. See the package insert from Pfizer's Rabies vaccine from the 10th Edition of the Compendium of Veterinary Products published in 2007 posted at <http://www.reversingvaccineinduceddiseases.com/files/3638448/uploaded/Rabies%20insert.pdf> , which states *tissue origin vaccines contain extraneous protein in addition to the [rabies] antigen that can lead to autoimmune disease*. THIS IS TRUE FOR ALL VACCINES, BUT THIS IS THE FIRST TIME I HAVE SEEN IT ADMITTED BY ANY VACCINE MANUFACTURER.

2. Molecular mimicry is due to similarity of proteins contained in organisms and mammals. (For example, the measles virus is made up of proteins similar to myelin basic protein; thus, antibodies formed against the measles virus antigens subsequently also cause an auto-antibody attack against myelin basic protein in the myelin sheath due to cross reactivity of these antibodies). This IS the reason why autism rates have skyrocketed since the introduction of the live measles virus vaccine. (Note that mercury has nothing to do with autism, which is actually subacute sclerosing panencephalitis (SSPE); the name was changed to hide the measles vaccine as the true culprit).
3. Formation of immune complexes occur as antigens and antibodies interlock into clusters which can then become trapped in various tissues, especially the kidneys, lung, skin, joints, or blood vessels. Once trapped, these complexes then set off an *inflammatory reaction* which lead to further tissue damage. THESE IMMUNE COMPLEXES BECOMING TRAPPED IN BLOOD VESSELS IS WHY CHILDREN AS YOUNG AS TODDLERS ARE HAVING STROKES AND HEART ATTACKS.
4. Intentional inclusion of antigens in vaccines to cause formation of antibodies that attack specific hormones. Experiments done on women of childbearing age in the Philippines and probably other locations where HCG (human chorionic gonadotropin) intentionally placed into vaccines given these women resulted in antibodies against the HCG hormone, and subsequent spontaneous abortion thus occurred when the women became pregnant. The NATO book "Immunological Adjuvants and Vaccines" published in 1989 describes, in the chapter entitled "The Development and Preliminary Clinical Evaluation of an Antifertility vaccine" how an antifertility vaccine has been developed incorporating HCG in a vaccine with ***diphtheria toxoid***; and that the vaccine will soon be suitable for large scale clinical use. (No surprise that the DPT vaccine is being pushed for women of childbearing age, and is even being given to pregnant women). The task force (which involves many agencies within the World Health Organization in this chapter as references) is in the process of developing other fertility regulating vaccines as well. ***Could the escalating problems with infertility in this country be due to women having been given this anti fertility vaccine without their knowledge or consent?***

Thanks to this NATO Life Sciences book entitled "Immunological Adjuvants and Vaccines", it has now been revealed that it is the *aluminum* which is put into vaccines as an adjuvant (to stimulate hyperactivity of the antibody response) which causes production of ***IgE; the antibody of allergy and anaphylactic shock***. This shocking admission comes in this book after the statement on page 6 that aluminum was introduced in 1926, before strict control by regulatory authorities was practiced; the

authors state that ***“whether it would be allowed by regulatory authorities today is far from certain”***. (Note that now that this IS known, there is no attempt to remove it from vaccines...better instead to sell “Epi-Pens” to the parents of children with life threatening allergies to peanuts).

Thanks to this book, I now have the evidence that IgE production is due to the aluminum in vaccines, as well as the fact that these mad scientists know exactly what they are doing. In fact, on page 7 of this NATO book, they also discuss BLINDNESS and arthritis as a consequence of adjuvants in vaccines.

Note that the "Legal" definition of Weapons of Mass destruction" follows (and can be accessed in any law library under these headings; all states have equivalent statutes); this can also be found at the top of www.drcarley.com :

West's North Carolina General Statutes Annotated

Chapter 14. Criminal Law

Subchapter X. Offenses Against the Public Safety

Article 36B. Nuclear, Biological, or Chemical Weapons of Mass Destruction

§ 14-288. 21. Unlawful manufacture, assembly, possession, storage, transportation, sale, purchase, delivery, or acquisition of a nuclear, biological, or chemical weapon of mass destruction; exceptions; punishment

(c) The term “nuclear, biological, or chemical weapon of mass destruction”, as used in this Article, means any of the following:

(1) Any weapon, device, or method that is designed or has the capability to cause death or serious injury through the release, dissemination, or impact of:

- a. Radiation or radioactivity;
- b. **A disease organism;** or
- c. Toxic or poisonous chemicals or their immediate precursors.

(d) Any person who violates any provision of this section is guilty of a Class B1 felony.

There are many research articles that reveal the mad scientists' never ending attempt to use our own immune systems against us. A recent article I came across can be found at http://vaccinewsdaily.com/medical_countermeasures/326736-researchers-find-mechanism-viruses-use-to-shut-down-the-bodys-defenses , where they have found a way to make cells more likely to be infected with viruses. However, such research has been going on for DECADES! The most heinous example are 2 memoranda published by the WHO (World Homicide Organization) in 1972, which can be found at <http://www.ncbi.nlm.nih.gov/pmc/issues/169484> (check near the bottom of the page under “Memoranda”). The articles are written in mad scientist language, but the big picture of these memoranda outline the ability to create bioweapon vaccines that:

1. Totally disable the immune system; then
2. Load cells of the body with viruses (which the above article will contribute to); then

3. Switch the immune system on leading to a cytokine storm that will kill the host (a cytokine storm occurs when a particular type of molecule in the body, known as [cytokines](#), activate the immune cells at the infection site and cause more immune cells to flood the site of infection. This propagates what is referred to as a cytokine storm, where far too many immune cells are caught in an endless loop of calling more and more immune cells to fight the infection. The reaction ends up inflaming the tissue surrounding the infection. When the infection is in the lungs, this severe inflammation can cause permanent damage and will eventually shut down breathing completely. The airways get clogged, and cells no longer properly absorb oxygen; YOU DROWN IN YOUR OWN BODY FLUIDS.

THESE MEMORANDA WERE WRITTEN OVER 40 YEARS AGO. *If this is not evidence of crimes against humanity, what is?*

“Misprison of felony” is defined as “having knowledge of serious criminal conduct and attempting to conceal it”. However, rather than prosecute these genocidal maniacs, our government funds their research and then writes laws mandating these bioweapon vaccines be given to our children and our pets.
