

What's Ailing America?

THE ATROCITIES CONTINUE

JB Campbell and myself continue to look for an internet radio station which will not censor the message of how to take down the psychopaths destroying our world as explained at <http://www.americandefenseparty.com> . There will soon be a paypal button on his site, and we shall see how much support is generated from those who know our country is being destroyed. JB is starting a **non-voting political party dedicated to the dismantling of the federal government. It's not anarchy because we'd still have the state governments, which are bad enough.** Nothing matches the danger to our lives and property that the US federal government presents.

The threat of the federal government against citizens is further illustrated by John Whitehead (author of "A Government of Wolves") who speaks out against drones at: <http://www.youtube.com/watch?v=YSp-bhakCFs> . We are now being distracted by Amazon announcing that they are developing drones to deliver your Amazon orders, which will unemploy millions of USPS, UPS & Fed Ex delivery drivers. The real dilemma not spoken of is how you can tell whether a drone is delivering something you ordered or a weapon of mass destruction designed to kill you?

And then we hear of a new drone which can snatch citizens off the street: <http://www.infowars.com/new-drone-could-snatch-humans-off-the-street> . "Justin Thomas and his colleagues at the GRASP Lab have produced an "avian-inspired" claw drone that mimics the way an eagle uses its talons to grab a fish out of the ocean. A video clip of the drone shows the UAV swooping down at high speed to snatch an object using its 3D printed mechanical claw. By mimicking how a bald eagle sweeps its legs and claws backwards to aerodynamically close in on its prey without the need to slow down, the drone is able to grasp a stationary object with precise efficiency."

Some good news: U.S. Generals Now Take Action to Watch Obama:

<http://www.thelibertybeacon.com/2013/11/26/u-s-generals-now-take-action-to-watch-obama> . "After one of them called for the "forced resignations" of President Obama and congressional leaders in response to multiple grievances, including the alleged political purge of hundreds of senior military officers, two retired U.S. generals are creating a citizens' commission to scrutinize Obama administration actions on national security and economic issues. The "America's Provisional Leadership Council" will look at major concerns, as outlined by Army Gen. Paul E. Vallely and Air Force Brig. Gen. Charles Jones, in an eight-point paper titled "The Americans Project". Vallely told WND he sees The Americans Project as a "citizens' commission" of prominent Americans to provide advice to legislative and executive branches of government. In calling for the forced resignations of Obama and the leadership of Congress. Vallely outlined suggestions for nationwide rallies and said a peaceful "**civil uprising is still not out of question.**"

It is obvious that we are way beyond the time where a civil uprising to stop the ongoing crimes against humanity should be happening. As always, bioweapon vaccines are at the top of the

killing strategies of the psychopaths. Check out **[Are Aerosol Vaccines Forced Upon Populations via Plane or Helicopter The Wave of the Future?](http://healthimpactnews.com/2013/are-aerosol-vaccines-forced-upon-populations-via-plane-or-helicopter-the-wave-of-the-future)** **<http://healthimpactnews.com/2013/are-aerosol-vaccines-forced-upon-populations-via-plane-or-helicopter-the-wave-of-the-future>** - **this article includes info on “CALIFORNIA AERIAL SPRAYING for WNV and SV40” :**

“In February 2009 to present date, aerial spraying for the WNV occurred in major cities within the State of California. During spraying of Anaheim, CA a Caucasian female (age 50) was exposed to heavy spraying, while doing her daily exercise of walking several miles. Heavy helicopter activity occurred for several days in this area. After spraying, she experienced lightheadedness, nausea, muscle aches and increased low back pain. She was evaluated for toxicological mechanisms that were associated with pesticide exposure due to aerial spraying utilizing advanced biological monitoring testing. The test results which included protein band testing utilizing Protein Coupled Response (PCR) methods were positive for KD-45. KD-45 is the **protein band for SV-40 Simian Green Monkey virus. Additional tests were performed for Epstein-Barr virus capsid and Cytomeglia virus which are used in bioengineering for gene delivery systems through viral protein envelope and adenoviral protein envelope technology. The individual was positive for both; indicating a highly probable exposure to a DNA vaccination delivery system through nasal inhalation**” [fraudulently advertised as pesticide spraying against WNV].

Note that “DNA vaccines” translates to alteration of our very genetic structure by insertion of plasmids of DNA material.

And the outrages of Obamacare continue to be revealed: very important is an article at **<http://www.prisonplanet.com/congressman-warns-of-obamacare-secret-security-force.html>** . “During an appearance on the Janet Mefferd Show, Rep. Louie Gohmert (R-TX) warned that a provision within Obamacare could create an **armed “secret security force”**. Referring to a section of the gargantuan Obamacare law which discusses “the president’s own commissioned and non-commissioned officer corps,” Gohmert drew attention to the notion that under the pretext of a “national emergency,” such individuals could be used to impose some form of **medical martial law**. Under the Affordable Care Act, the Ready Reserve Corps is directed to “assist full-time Commissioned Corps personnel to meet both routine public health and emergency response missions. **It says it is for international health crises, but then it doesn’t include the word ‘health’ when it talks about national emergencies.**” said Gohmert. “I’ve asked, **what kind of training are they getting....I want to know are they are they using weapons to train, or are they being taught to use syringes and health care items?**” asked the Congressman, adding that “no clear answers” had been forthcoming on the issue.” Combined with the continued DHS arms build up along with the federal agency’s **hiring of armed guards with “Top Secret” security clearances**, Gohmert characterized the issue as “very disturbing”.

<http://www.financialsense.com/print/contributors/michael-shedlock/obamacare-website-you-have-no-reasonable-expectation-of-privacy> : Right in the source code for the Obamacare website is the statement, **“You have no reasonable expectation of privacy regarding any communication of data transiting or stored on this information system.”**

It is curious why this message would be placed in the source code where no one would have any expectation of ever seeing it. In the video below (which came out following last week’s Congressional testimony) Rep. Joe Barton (R-Texas), a member of the House Energy and

Commerce Committee, grilled Cheryl Campbell, senior vice president of CGI Federal Inc., the company that built the Obamacare health care exchange website, on the hidden language and on HIPAA compliance. Campbell testified that the system is [HIPAA Compliant](#) [1]. "The HIPAA Privacy Rule addresses the saving, accessing and sharing of medical and personal information of any individual, while the HIPAA Security Rule more specifically outlines national security standards to protect health data created, received, maintained or transmitted electronically, also known as electronic protected health information." In repeated questioning, **Barton got Campbell to admit she knew that the "no reasonable expectation of privacy" line was in the code. Barton then asked "How the hell could it be HIPAA compliant?" Campbell refused to answer the question.**

THIS IN ITSELF IS REASON ENOUGH NOT TO SIGN UP FOR OBAMACARE! Your personal info will be available to any identity thief; not to mention that you will be forced to get bioweapon vaccines, mammograms that cause breast cancer, etc., etc. to keep your insurance,

In closing, I am very excited that outstanding illustrator David Dees (who brings conspiracy realities to life in his illustrations) has now put his illustrations into one book which can be ordered at <http://www.rense.com/1.mpicons/ddeesbook.html> . These illustrations can wake up your friends and family without you having to say a word...

I will leave it there for this week...much more to follow. Please spread the word....
