

Open message to Dr. Spenser,

Dr. Spenser, (and list members)

On Dr. Carley's 02/13/2010 What's Ailing America? radio show, you asked the question of where such a finely crafted letter like the one you received from the Wellness Committee might come from. I cannot comment on its origin, but I can say that it had ALL of the necessary tools used for 6000 years to handle people as herd animals to get them to move in the desired direction. Among the many techniques is the use of what I call *NWO Vomit Words*. I have reviewed some material that people have sent me on CIA hypnosis that is slowly shifting my interpretation that these are CONTROL WORDS that have been embedded in the general population via public speech and literature dating back at the very least to the time of Jenner that I have been able to verify. (For those of you who are still hung up on Linear Time, the CIA was formed in 1947 but that does not mean that it did not exist as a secret society before it surfaced like a boil).

***reaching out  
concerns***

***belief*** (quite possibly The Most Dangerous Word in Hu-man History).

***benefit*** (Ralph Winterrowd shows clearly that once you accept a 'benefit' you have no remedy).

***harm/safely/safety*** (if you aren't buying a pound of what I'm selling just listen to any speech by Bush where every other word is *terror* and *security*)

***agreement*** (this is usually delivered in the form: "*I think we would all agree...*" when a dispute goes into internal or external arbitration. Again, it is controlling the terms and the debate. No one can speak for another man or woman.)

***relationship*** (often couched in other terms like *Stakeholder*, etc.)

***we do not agree*** (often in the form of "*I disagree*" which is the genteel form of saying: B.S. Wouldn't the world be a more bearable place if people just called B.S. on each other?)

***appropriate*** (*appropriate* is a Whore of a word. It can be used to mean anything that it is desired to convey, since in power-struggles the 'appropriate' thing is that which is forced on the weaker by the stronger. This kind of word-substitution was outlined by the Luntz/Rove/Bush dynasty but it has its roots in the 6000-year-old deception. If you replace the White and Black of Good and Bad with an Ambiguous Non-Word, then a sentence has lost all of its intrinsic meaning and is only a vehicle to shuttle the animal into either the left or right chute that was prepared for it. False Binary Choice. Never Option 3. For the past 6000 years they have been renaming the 'gods' from Ea to Ra to Apollo to Yaweh. Name-changing and Word-changing is their stock-in-trade. If we stuck with *Good* and *Bad* and *Total B.S.* the fabricated *disagreements* would dissolve.)

***professional*** (This came to my attention in the early 1980's. It is a Cult of Personality substitute for *Authority*. It doesn't take a '*professional*' to identify B.S. when they smell it. BeLIEve me, I've lived in Farm Country long enough to know that for a fact.)

I had shared this website with people I was working with in the background on animal vaccines while I was writing my book, but it seems time to introduce it again to everyone on the list with an emphasis that the authors talk about damage to meat by vaccines and then address the ancient methods of inducing the animal movement they desire by careful physical placement of the Herder. Vaccines. Herd Control. All in one document.

The highlights of the document are that they cover everything from birth to butcher with special sections on: **Vaccination Site Management** and **Flight Zone**. Please click on the picture Figure 4 and study the physical space boundaries and physiology of how to handle an animal to get it to do your will. As always, veterans to my list will understand, I ALWAYS tell you to substitute a picture of you, your granny, or your children for whatever ANIMAL they have under these studies. This is a Sumerian Overlord Tutorial for world domination in the guise of a scholarly paper from a university.

I know there are a lot of people on my list who favor Extraterrestrial Biological Entity lines of thought over the Gods and Demons camp, so I offer, in the form of a question: *What the HELL does NASA have to do with a national beef producer's program?* Something here just does not add up for me, but then I heard that NASA stands for: *Never A Straight Answer*.

In the early 1960s, Pillsbury, NASA and the U.S. Army Natick Laboratories cooperatively developed a revolutionary quality control program. Its objectives were to ensure food safety on NASA missions and to reduce the chance of product defects entering the food chain.

I guess thanks are in order for that, Tang, and Space Food Sticks. Oh, and, by the way, the Moon Landings were a hoax. Great entertainment, though.

Folks I think these are nothing but ILU AMON ATYS documentaries that are only realized by the initiated; and gold-diggers like us.

The manipulation also comes in the form of pre-scripted rhetoric that was shown to me by Joe Spenner in his epic work: Rockefeller Regionalism, The Shadow Behind Oregon's LCDC. (I have about 5 copies left at \$25 per book before shipping costs). Joe is a self-declared Farmer and Janitor. As I said before, it does not take a *professional* to smell the cow pies. Joe is probably the best intelligence officer this nation has had to defend it against domestic enemies. His work contains the World Health Organization Memo #1 that I feel was instrumental in reducing the impact of what they had planned with the Swine Flu vaccine. Joe demonstrated in no uncertain terms that there is a clearinghouse that drafts and SELLS the Model State Laws! This is how the Patriot Act was complete well before the manufactured crisis that pushed it into the Sumerian Funnel of choices:

Be afraid.  
We will protect you.  
Give us your freedom.

That was a choice?  
Anyway, it seems that Dr. Spenser's letter and others I have had the displeasure of experiencing seem to come from a pattern of thought that might be trained or pre-fabricated. If it was spontaneous, then I am suitably impressed.

Another tool that the Medical profession uses is a very scary system called the Delphi. It is a reference to the Oracles that served the ancient pantheons of days-gone-by. Basically, a conglomeration of 'stakeholders' in the medical Industry will get together and have a Whine Session about '*Challenges*' (NWO Vomit Word/CIA hypnosis trigger) that they have to form an '*Action Plan*' for. They put all of their variables into a computer and it poops out a solution. Talk about Borg and 1984, and 2001: A Space Odyssey rolled into a Chinese fortune cookie!

So, it may be that a computer program is used to craft such amazing documents as well.

Don't know.

Don't care.

When you understand that there is a set of core principles they use to craft all of these things then you can SEE THE PATTERN and you can formulate a counter to it.

- Control the language.**
- Create Labels to attach to opponent.**
- Redefine the 'problem'.** (typically done like in the letter sent to Dr. Spenser that then becomes part of a permanent file reflecting their version of the narrative that, once established, has to be rebutted.)
- Offer a False Binary Solution.**
- Set a deadline.**
- Threaten escalation to higher 'authority'.**

When you internalize these principles they will start to stand out like Neon signs in the desert. Since the ILU AMON ATYS use the same patterns every time (Never Mess With A Working System) you have very little to learn to get up to speed and on the way to protecting yourself from the Lip of the Funnel.

- Assert the proper language.**
- Deny all labels and re-label your accusers.**
- Assert the FACTS.** There are not versions of the Truth. There is only Truth.
- Reject any offers.**
- Assert your own set of choices.**
- Act quickly, decisively, pre-emptively and set your own timetable.**

**-Stand on your own Authority. If there is no injured party there is no cause.** Their 'Authority' is typically in the form of committees that admit in writing that they have no authority and simply ask their victim to dutifully harm themselves. 'Higher Authority' must be able to demonstrate statutory powers to even address you as a Living Being (not a corporate entity) or they too are powerless. If you defer to the Higher Authority without demanding that they show, on the record, their ability to affect you then you have just entered a lower zone on the Sumerian Funnel that is harder to extract yourself from. (Ralph Winterrowd is an expert at demonstrating that Agencies have no legal basis whatsoever. Listen to his interview on [www.drcarley.com](http://www.drcarley.com))

I hope you and my list members can derive practical value from this, other than it just seeming to be inspirational words. Bruce Lee developed a system called Jeet Kun Do that translates to *Interception*. The concept was to shut down the attack before it ever contacted you – interception. Instead of fighting at the distance of a kick or punch that gave the advantage to the person with longer legs or arms, you instantly closed on the opponent in the Trapping Range where no one is accustomed to meeting an adversary. In all of the Martial Arts any punch or kick extended by the opponent is viewed as a gift because now you have a tool that you can use to your advantage. The letter that Dr. Spenser received was a GIFT. Because of his bravery it has now become a learning tool for others on how the Power Structure operates and MOST IMPORTANTLY their True Face. Simply because Dr. Spenser told the TRUTH he was attacked. Bruce Lee also taught what he learned from the Ancients that the fight does not go to the one who is the strongest or most skilled, but the bravest.

Soon, we will all have access to a document to support Dr. Carley in her INTERCEPTION of the Medical Mafia. Please support her in every way you possibly can.

Thank you.
