

Science over Sentiment

Are you freaking NUTS?

Is a valid question when talking about Opposite Day on Demon Planet ruled by Ancient Babylonian Vampyre Cults, except...

It fits.

You see in chemistry, molecular mechanisms can be driven by Shape and Charge.

I Am My Own Twin on Medical Mysteries demonstrates quite convincingly that there are things described by the Ancients that are only just now being brought into the public consciousness. A baby was born with a line from its abdomen to its genitals separating Dark Colored skin from Light Colored skin. This is a form of Chimerism called Mosaicism and was described quite clearly in Cassell Dictionary of Witchcraft, David Pickering, 1998 under the entry for:

Ashtaroth

Powerful demon who was believed to know all secrets and could allegedly be summoned to make revelations about the past and future. Ashtaroth (or Astaroth) **appeared in the form of a half-white, half-black human male, though he began life as the nature goddess Astarte**. Worshipped by Solomon after persuasion from the women in his harem, Astarte represented love and fruitfulness and was celebrated in orgiastic rites, until, according to the Old Testament, she was transformed into a demon as punishment for opposing the Christian god. Reputed to have revolting foulsmelling breath, Ashtaroth had command of forty legions in Hell and was one of the demons to which Madame de MONTESPAN was reputed to have made human sacrifices in her attempts to obtain magical influence over Louis XIV of France (see CHAMBRE ARDENTE AFFAIR). Tradition has it that he could only be summoned successfully on Wednesdays, and then only between the hours of ten and eleven at night.
See a/so GREAT GODDESS.

Let's start from the Beginning. Literally. Well, as far as the literature goes...

The Ancient of Days in the Mesopotamian Valley was known as Ash or Asher. As you know, you can't have just one name in Crazy Valley. The Ancients or Forgotten Ones were the Gods that came before The Gods. Asher-ah was the Consort of Yah, Yahu, Ea also known as Jehovah - the German mutilation of the YHVH Yod Heh Vod Heh. Yes, the god of the Old Testament had a girlfriend but that is conveniently covered up by the Warlock King James Stewart. Just protecting his momma since the Ah appellation was the alter ego of the Lilituv/Lilith.

When you are talking about Mother/Father/Sister/Brother incest among these ancient androgynes then the modern term of cloning surfaces. I no longer give special attention to the players but more to the gender and bloodline. The Astaroth or Ashtaroth is the male while the Astarte was the female. You can see that at the end of the entry the very generous clue was to look into the Great Goddess, who is, as I have said for some time now, the Lilituv/Lilith the First Vampyre Demon Queen of Babylon aka The Whore of Babylon. The Moon Cult.

The striking part here is the HALF WHITE, HALF BLACK Chimera being described for a timeframe that predates the current popular Blood Cults of the Abramic Tradition. These were the Old Ones, The Ancient of Days. The progenitor Demons.

And they were freaking Chimera Mosaics as if they were pulled from the recent episode of Medical Mysteries.

The common theme of lust and orgies follows from Astarte to Asmodeus in the citation below as does the connection of the worship and adoption of these Demons by the famous Hebrew King Solomon. Lust and Rage are the attributes of what the virus Rabies does to its victims hence my early theory that Evil and The Devil might, in fact, be ancient viral strains that were able to take over the Central Nervous System of Hu-mans. Chimeric Parasites were then introduced to us as a possibility to explain the distinctive Races of Good and Bad human beings. When a physical human body can be host to two separate DNA codes it bridges the gap from: *What the Hell are you talking about?* to: *show me that scientific study again?*

Asmodeus Demon who personified lust and lechery. It is thought that this demon was descended ultimately from the Persian deity Aeshma Daeva, the God of Anger, who moved men to thoughts of revenge. Adopted by the Jews, he was frequently depicted causing trouble between husbands and wives by preventing intercourse between them and by promoting adultery, and it was but a short step from this to his eventual status as the God of Lust. Solomon acquired power over Asmodeus by means of a magic ring, and obliged the demon to help in the building of the Temple; Asmodeus, however, deceived Solomon into giving him the ring, which he then flung into the sea (only to see a fish return it to Solomon in its belly). When summoned by witchcraft, Asmodeus was reputed to manifest on the back of a dragon and to have three heads, those of a bull, a man and a ram. If treated with due respect (the person who summoned him had to do so bareheaded) he might grant the power of INVISIBILITY and might also reveal the whereabouts of hidden treasure.

Again, we have the Solly connection and if you read the Persian legends of the Suileman you find that Good Ole Asmodeus was a Demon Vampyre Genii.

Hey, I guess you get help building a Temple to Yahveh anywhere they're hiring...but then, of course, he wasn't really hired was he? Magic Ring? Sounds like a Peter Jackson movie: Lord of the Rings, so as to imply that maybe Tolkien was Bloodline and preserving the documentary of their storylines while Christians FLOCK to the movies to see the parallels that he wove that seemed to come from 'Scripture'.

The description of the CHIMERA of Asmodeus is no more unusual or repulsive than the description of the creatures that surround the Borg Cube throne of the Hive Mind of Yahveh since even the Prize Creation the Cherubim Lucifer, The Devil, HaSatan was himself a Chimera.

Do me a favor some time and REALLY READ the Old Testament. The visions of the Prophets are filled with so many Monsters you wonder if these creatures truly existed or if the CIA sent really-refined hits of acid back in time with messages in Hebrew: *Don't do the brown dots, Dudes!* (Woodstock joke for old folks)

So any time you are free on Wednesdays from 10-11pm you might want to see if the planets are aligned for line-of-sight transmission of radio broadcast to the Good or Bad Aliens that these creatures might be on a distant planet, or perhaps like Dr. Carley said

she saw on an episode of Fringe that the appointed time is when the oscillating frequencies of Alternative Universes interact at Nodal Points so that entities can cross over.

Don't know. Not going to invest in finding out.

Just know this, folks: that everything I read even going back to 1300 AD shows me that they have been keeping us retarded of knowledge that was hundreds of years in advance of its time. Imagine what GOOD could be accomplished if scientific knowledge and advancement were not purposely OCCULTED?

If you have read my book (check link to Café Press at www.drcarley.com) then you know that bacteria disease could have been eliminated in the 1930s but they chose to use Bacteriophages as weapons instead of healing tools.

EVERYTHING they do is bad. Whether they are infected or a distinct species these creatures have been here for a very long time but they are losing their Cloak of Invisibility. See them in the Patterns if you don't see them in everyday life – and don't do the brown dots, man!
