

What's Ailing America?

LACK OF RESPONSE TO DESTRUCTION AT ALL LEVELS

As I always say, I will unfortunately never run out of answers to the question "What's Ailing America?" I have dedicated my life (as many others have) to waking up the population as to the ongoing intentional destruction of our health, air, water, food, children, pets, economy, privacy, civil liberties, genetics, family units, and the protective instinct that animals in nature exhibit toward their offspring. I just don't get it. How can the majority of humans with a conscience do nothing as it becomes increasingly obvious that the psychopaths who control the world are destroying everything that matters? It is obvious that we are already dead if we do nothing to stop these monsters. SILENCE IS CONSENT. However, unfortunately it seems as though most people put their heads in the sand until they experience the massive corruption personally in some way. Of course, when that happens, it is oftentimes difficult to carry on. Isn't it obvious that acting to stop the destruction before it happens to you is critical?

I continue to do all I can to motivate people to stand up and say NO MORE. I finally found a radio station (www.freedomslips.com) that does not censor me in any way, and I am exposing some of the darkest things going on in an attempt to snap people of conscience out of their apathy before it is too late. Please do all you can to do the same. Our very survival depends on it.

Occasionally the main stream media will surprisingly cover something real. I was shocked to see an interview of John Whitehead on Fox on 7/27/13 by ex-governor Huckabee regarding his new book "A Government of Wolves" (see <http://www.dailypaul.com/293896/john-whitehead-appears-on-fox-news-huckabee-fox-friends-to-discuss-new-police-state-book-a-government-of-wolves>). They discussed how home invasions with NO WARRANTS by militarized police have increased by 3,000% since the 1980's to **over 80,000/year at this point**. One of the cases discussed was that of the mayor of Berwin Heights, Maryland...as often happens, the psycho cops had the wrong address. But as they always do, the first action was to kill his 2 dogs after they broke down his door with no warrant, and threw him to the floor, putting a gun to his head. Disgustingly, the courts often rule that these psycho cops have "qualified immunity"; even when they kill people (including CHILDREN) that were mistaken for the targets they were actually looking for. Did you know that **all** agencies now have swat teams with hollow point bullets, even the Dept of Fishery? Why is this happening? These terrorists need to be identified publicly, and shunned in the communities in which they live. Their families need to know what they are doing. Let their children face the fact that their fathers are serial killers. In my show with JB Campbell (founder of the militia movement) on 7/20/13 which can be accessed at <http://www.youtube.com/watch?v=PIN1VUFhFKM> , we discussed how attorney John Whitehead rescued veteran Brandon Raub from the psych ward he was brought to after the psycho cops abducted him because he was questioning the fake wars on his facebook page. Turns out THOUSANDS of people are being disappeared into psych wards, often never to be seen again. It was nothing short of a miracle that Brandon's mother found an attorney with a conscience and a backbone (John Whitehead), and that Mr. Whitehead was able to get Brandon released before his brain was destroyed by the medical devils. In fact, the psycho psychiatrist had told Brandon shortly before his release that they were going to brainwash him. I would rather be

killed than be brought to an American Gitmo psych ward. Each person should think about what they will do if the door is broken down in the middle of the night by these killers.

Meanwhile, the presidential war criminals (Bush and Obama) are finally getting the attention they deserve for their crimes against humanity:

This is very good news, and it is important to share any good news with those who have been brainwashed to beLIEve there is nothing we can do to hold these bipartisan psychopaths accountable for their treason and crimes against humanity.

On last weeks' show with Fritz Springmeier (<http://www.youtube.com/watch?v=jg40SLeRR6k>), I covered one of the darkest epidemic realities going on in America and globally; satanic ritual abuse . (Check out his blog at <http://pentracks.com/blog>) As you review the documentation of this epidemic of pure evil which most of the psychopathic "leaders" engage in, consider this quote: "*Only the small secrets need to be protected. **The big ones are kept secret by public incredulity.***" -Herbert Marshall McLuhan, *20th Century Canadian Sociologist*.

I had to personally face this pure evil, as the monsters who kidnapped my only son made sure I knew this was happening to him. I'm sure many of you will not want to open your minds to this reality, as even reading or hearing what is happening to these children is very traumatic. This evil is epidemic amongst the jewish bloodlines, and before Oprah sold out and started concentrating on "makeovers", she actually interviewed a survivor of this torture by her own family members. Surprisingly, this interview can be watched at <https://www.youtube.com/watch?v=dsTm46RzVh8> .

Another atrocity which was promoted by MSNBC's resident witch Melissa Perry on her show is the concept of FOURTH TRIMESTER ABORTION. What does this mean? As you will read at http://www.naturalnews.com/041398_post-birth_abortion_infanticide_Melissa_Harris-Perry.html , "Getting back to Harris-Perry, according to her radical brand of death culture ideology, a parent can "decide" that a baby born alive isn't really alive yet. That parent can wait to see whether the baby is well-behaved, or cute, or has the right skin color, or whatever, before deciding whether to keep it or kill it." You will also read in this article that "Newborn babies have no "moral right to life":

A study published in the *Journal of Medical Ethics* argues that newborn babies have no "moral right to life," and are thus not actually "persons." Alberto Giubilini, from The University of Milan, and Francesca Minerva, a post-doctoral fellow at The University of Melbourne's Centre for Applied Philosophy and Public **Ethics**, are heroes of the radical left. They argue that **infanticide should be legal** but renamed "post-birth abortion."

They insist that newborn babies have no right to life and that parents can simply "decide" to kill their children for all sorts of reasons, including feeling like the child will be too expensive to raise, or suddenly discovering the fact that newborn babies cry a lot.

"Rather than being actual persons, newborns were *potential* persons," [write the study authors](#). ***They don't really count as human beings until the parents decide they do.***

How bad are you going to allow things to get, people of conscience, before you do *something*?

Always remember, SILENCE IS CONSENT.
