

What's Ailing America?  
POISONING PEOPLE (IN AMERICA) IS NOT NEWS

In my 16 years of answering the question "What's Ailing America?" on public access TV and internet radio, styrofoam and asbestos poisoning is one subject I had never covered. On 8/31/13 I interviewed ex-trucker Charles Lake, who was poisoned by these substances by hauling them in his truck. His journey in attempting to get a diagnosis from the white coats as well as workmen's compensation for the damages he sustained is an excellent example of how corrupt the "system" is. And if you believe Charles' story does not affect you, listen to how **YOUR FOOD is being poisoned by being hauled in the SAME trucks used to haul poison; and how the traitors in the district of criminals and agencies including OSHA, FDA, USDA & EPA KNOW what is going on, yet do nothing. The icing on the toxic cake is when Charles is told by the media that "CHEMICAL POISONING OF PEOPLE IS NOT NEWS".** To listen to the you tube archive of this important show, go to <https://www.youtube.com/watch?v=dldesPPT-WM> .

<http://www.drweil.com/drw/u/QAA401095/Is-Styrofoam-Safe.html> . Dr. Weil's site reports that "While the NTP (National Toxicology Program) describes evidence that styrene can cause cancer as "limited," it reports that the occupational hazards include an **increased risk for leukemia and lymphoma as well as genetic damage in white blood cells** of workers exposed to the chemical. Beyond that, styrene also has been associated with respiratory problems among workers exposed to it as well as with **"styrene sickness," a combination of headache, fatigue and feelings of drunkenness. Styrene causes lung tumors in several strains of mice.** To find out whether food containers are made with polystyrene, look for the number 6 inside the recycling symbol. Apart from the dangers styrene may pose to human health, it also poses a risk to the environment. According to the Environmental Protection Agency, **of the nearly 20 million pounds of waste styrene generated annually, about 17.8 million pounds winds up in the air and 1.7 million pounds gets into surface waters.** " Since styrofoam is so light, you can imagine how much styrofoam we are talking about to reach 20 million pounds!

So, Charles was told by mainstream media minions that poisoning of people (in America) is NOT NEWS. Yet, the psychopaths in control of our corrupt government who have already bankrupted our country (largely with their fake wars) are beating the war drums again; this time

planning a cruise missile attack for a release of sarin gas in Syria blamed on the Assad regime. Of course, the death and destruction caused by cruise missiles will massively outweigh the deaths due to the release of sarin; but this is how the psychopaths operate. Our Nobel peace prize winning traitor in chief was all ready to order this strike on his own...but after the Parliament in the UK voted NO to getting involved in yet another war crime, he “reconsidered” and opted to consult with Congress first. We can be sure that the arms of the traitors in the district of criminals are being twisted big time now, and that they will fall in lockstep with the never ending war agenda.

As expected, the mainstream media is busy promoting the attack on Syria with their propaganda. Since we are witnessing the same master template of lies which brought us into war against Iraq, people in the know are paying attention. Turns out that Anderson Cooper and CNN have been caught staging fake news about Syria to justify military intervention:

<http://intellihub.com/2013/08/29/cnn-correspondent-syria-exposed-actor-caught-multiple-lies>

“The primary “witness” that the mainstream media is using as a source in Syria has been caught staging fake news segments. Recent video evidence proves that “Syria Danny”, the supposed activist who has been begging for military intervention on CNN, is really just a paid **actor** and a liar.” No surprise there. And while this corrupt administration is preparing to kill more innocent civilians in the middle east, the Obama Department of “justice” has requested that immunity be granted to the Bush administration for their crimes involving the fake war against Iraq:

By David Swanson - Posted on 20 August 2013

“SAN FRANCISCO, Calif., (Aug. 20, 2013) — In court papers filed today ([PDF](#)), the United States Department of Justice requested that George W. Bush, Richard Cheney, Donald Rumsfeld, Colin Powell, Condoleezza Rice and Paul Wolfowitz be granted procedural immunity in a case alleging that they planned and waged the Iraq War in violation of international law.”

Of course, our corrupt government is not the only one committing crimes against humanity with the old “do as I say, not as I do” mentality. America’s pimp, Israel, continues the same pattern and practice:

<http://www.globalresearch.ca/israeli-crimes-against-humanity-gruesome-images-of-charred-and-mutilated-bodies-following-israeli-air-strikes/2787>

And the traitors in the district of criminals have voted to “support” these predators with billions of dollars via HR 4133 dubbed the “United States-Israel Enhanced Security Cooperation Act of 2012,” which makes it “the policy of the United States to help Israel preserve its qualitative

military edge” and “to provide Israel the military capabilities necessary to deter and defend itself by itself against any threats.”

And then there is Project Shad: <http://www.youtube.com/watch?v=EVO2YficNsc> . Learn how the Navy exposed their own men to chemical and biological weapons in the 1960's by putting monkeys in cages on open decks on ships and spraying the monkeys (and the seamen) with SARIN GAS, VX nerve gas and various microbes from airplanes. 5,000 veterans have not only been denied benefits for 40 years, but were even threatened with arrest if they revealed this classified project that made them all sick. So our government spraying sarin gas on its own seamen is OK, but sarin gas used in Syria is an excuse to launch cruise missiles? HOW DOES THAT COMPUTE, PEOPLE?

Of course, we know that it is only going to get worse:

<http://abcnews.go.com/blogs/politics/2013/08/outgoing-dhs-secretary-janet-napolitano-warns-of-serious-cyber-attackunprecedented-natural-disaster> : “The outgoing Homeland Security Secretary has a warning for her successor: A massive and “serious” cyber attack on the U.S. homeland is coming, and a natural disaster — the likes of which the nation has never seen — is also likely on its way. So prepare, and bring “a large bottle of Advil,” Janet Napolitano told her yet-to-be-named replacement in a farewell address Tuesday morning.” Because the psychopaths in the district of criminals make big big bucks on “disaster capitalism”:

The most glaring example of an inside job/disaster capitalism, of course, was 9-11...not to mention it was the excuse used to turn us into a police state.
